Sorry Lee-Whei. I don't have PowerPoint at home either.

Chris,

I am sending more material for next meeting with PG&E re customer survey issues for you to read. I also converted another word into .doc.

PG&E requested that we read through everything and prepare for questions before the call.

Lee-Whei

Chris,

I converted the IOUs customer survey questionnaire into .doc file for you to read.

Lee-Whei

Hi Lee-Whei and Elise,

I'm getting better, but feel it's better to take one more sick day. Could you send me a few of the studies off of Fortknex that the utilities have sent us in regard to the customer surveys on rate design they want to do? Send some of the smaller ones that are not multiple megabytes. Also, unfortunately, anything that's .docx has to be converted to the old .doc extension so I can read it at home. Sorry for the extra trouble. Lee-Whei, I can't read the survey the utilities put together that you sent around today. Also, I don't know, Elise, if you've finished your summary. If you have, send me that too.

I figure I can probably work half a day.

Thanks!

Chris
