Subject: Lunch to discuss CEQA issues

After the this last go around on PTC issues, I think it would be a good idea for the three of us to get together and have an offline conversation on how to make this process work better. The CPUC can clearly do a better job of staying focused, but I think PGE can do few things to avoid some procedural problems and can also do a few things to avoid “pushing the wrong buttons” with my team.

Right now most of next week is looking good for lunch for me.
