Subject: RE: LTPP schedule

Hi Erik,

My rough sense of the timing is that we're aiming for both tracks this year. I haven't read the comments for Track 3 in detail, but my take was that there may be rules changes, but no need to refile the bundled plans wholesale. Brian Stevens in Procurement Oversight is handling the Track 3 issues.

On Track 2, we're basically in the "wait for modeling" stage. The ISO has indicated March for one scenario and June to August for the other scenarios. We're aiming towards an end of year decision on Track 2. I'd expect more schedule and activity on Track 2 as we get later in the month / early February.

Does that help?

Best,

Nat

Subject: LTPP schedule

Nat,

Do you have a sense of the timing for Tracks 2 & 3 of the LTPP? I've heard that a Track 3 scoping memo will be issued later this month, but I haven't heard anything about the schedule for Track 2. Is the Commission generally targeting for a Track 2 decision by the end of this year, and Track 3 decision next year? We are trying to do some internal planning of our allocation of resources, and any insights you have would be appreciated.

Thanks,

Erik
