Data Response**

PG&E Data Request No.:	EnergyDivision_001-1B Supplemental 01		
Request Date:	January 21, 2013	Requester DR No.:	001
Date Sent:	January 24, 2013	Requesting Party:	Energy Division
PG&E Witness:	Various	Requester:	Sean Simon

QUESTION 1B - SUPPLEMENTAL

Assuming that the 39.22 Energy Procurement FTEs identified in PG&E's response does not include staff working in PG&E's transmission department, can PG&E provide the number of employees and FTEs working on transmission that worked on the RPS program in 2011.

ANSWER 1B - SUPPLEMENTAL

The table below shows the updated number of Full time equivalent (FTE) employees in each department in PG&E identified as having worked on RPS implementation in 2011 to include employees in the General Office that work on RPS transmission related projects. PG&E reserves the right to revise and update this list in future reports.

Department	Number of Employees that worked on the RPS Program in 2011 ¹
Energy Procurement	39.72
Law – Internal Only	4.86
Regulatory Affairs	5.75
Electric Transmission Operations – Internal Only ²	14.00
Total	64.33

¹ Employee totals expressed in FTE.

² Includes PG&E employees ONLY. The cost of transmission related studies are paid for by the developers. Does not include employees involved in other renewable transmission interconnection related work (e.g., design, construction, etc.)
