Subject: RE: Today's call: CPUC Symposium

Hi Jane,

I am happy to have people nominate, but I would rather not have Bill Scott nominate, and I want to retain veto power over any particular presenters. I have seen the same INGAA presentation about 10 times, so that is where that concern is coming from.

Julie Halligan, Deputy Director

Office of Utilities Safety and Reliability

Safety and Enforcement Division

California Public Utilities Commission

Subject: Today's call: CPUC Symposium

Hi Julie – in case we don't connect this morning, before our 1:30 call, here's what I recommend to move the team along:

Theme: “Gas Safety: a shared Responsibility”

1. request the team to submit a list of recommended invitees by next Friday. PG&E will help develop a consolidated list for everyone, which we can then see/discuss. The list should include name, organization/company, email address (we will send invites electronically) – I can send a simple excel template after the call.

2. assign us to identify the presenters for the 3 panels, and the areas they will cover: Regulatory (Lead: Julie, support Laura), Utilities (Lead: Jane, Bret and Jerry), Industry (Bill Scott)-- next Friday's call, report out on the invitees and the presenters.

3. Logistics: I can report out on venue, how we're going to send invitations electronically and manage rsvp's

Am on a conference call till 11--

Thx,

Jane
