Julie

The name I referred to is Naj Meshkati. He is a professor of Civil Engineering at USC. As I mentioned, I believe it was Robert Sumwalt (NTSB) who recognized Naj in the audience during the safety meeting in Los Angeles. You can google him and see his background sheet on the USC website.

Julie --- here are the panel recommendations for the Utility Industry Panel that you can begin to review. We included the recommendations by [Redacted] for the Public/First Responders Panel. And made suggestions for the other two, for our call this afternoon. I know there is work in progress this morning --- but thought it better to get out earlier,

Thx

Jane

Just a status update – [Redacted] has sent us all a draft of suggestions for the Public Safety panel; Jerry Schmitz, Bret and Jane have a call to discuss the Utility industry panel first thing tomorrow, to share with the team during the 1:30 PST call tomorrow; hopefully Julie and Bret have had a chance to touch bases on the other Industry panel; and Julie with Peter on the Regulatory panel. I know everyone is working on their proposed attendees' list.

If any panel recommendations are ready by noon, pls forward to the team for the 1:30 discussion. (Dial In [Redacted])

Thank you,

Jane
