Subject: RE: R.12-06-013: Bill Calculator Model Link - SDG&E

Thank you everyone for your participation on today's call. The following is our understanding of follow-up items from today's call for the Updated Model to be released **Friday March 8th**:

- Ability for parties to write own macros—SDG&E will investigate alternative methods for protecting underlying data that will allow for parties to develop their own macros.
- Create macro to allow for ease in printing main output (rates/graph).

- Output graph showing distribution of bill impacts by income range.
- Output graph showing comparison of bill impacts of alternative CARE discounts (specifically the income options).
- Alternative presentation of Tiered TOU option as Tiered rates with TOU overlay (i.e. option with on-peak adder with off-peak credit).
- CARE – ability to have CARE T4 become new CARE T3 with collapse of CARE T2 and T3.
- Inclusion of additional elasticity options. We will need the interested parties to provide suggestions/recommendations on the development of this functionality.

Please provide any further feedback in writing to this distribution list by **Friday March 1<sup>st</sup>** for consideration in the March 8<sup>th</sup> update.

Have a great weekend everyone.

We have not received any responses to the suggested meeting times to walk through the SDG&E calculator updates. While I would love to assume that this means no questions, I find that unlikely. The times proposed are for this week so please let us know by the end of today if any of these times work. Otherwise, feel free to contact us with individual questions.

Below please find the Google Drive link for SDG&E's updated Residential Rate OIR Model. Included as attachments are (1) the User-Guide updated to reflect the model updates, and (2) a word document listing the updates made since the last release of the model with the respective User Guide reference.

Same as before, you will not need a Google account to access the file. Simply download the file, save it to your computer, open the file, and then enable editing and macros when prompted.

SDG&E is providing this model for the limited purpose of examining alternative proposed residential rate designs as part of CPUC proceeding R.12-06-013. SDG&E believes this model to be correct to the best of its knowledge as of February 11<sup>th</sup>, 2013, but does not provide any warranty or guarantees regarding its use or ability to analyze all potential rate design scenarios. Parties are, of course, free to develop their own analyses.

Along with the Bill Calculator Model, we are providing an updated Electric Bill Calculator Tool from the December 6th workshop, the Bill Calculator Model methodology documentation, and an Excel table showing the status of the additional model functionalities.

Please also note, that we explored several different options for providing the model to you. We had difficulty going past our firewall with other 'Dropbox' software. We apologize for the inconvenience of having to create a Google account if you don't already have one.

Please direct any questions regarding this email to the Case Manager, Catherine Tarasova ([YXT5@pge.com](mailto:YXT5@pge.com)<<mailto:YXT5@pge.com>>) or myself.
