Thanks, Franz. I know our folks are talking to see if there is an ability to coordinate.

Folks,

I just wanted to make sure that you were in touch with your counterparts; I spoke to ALJ Mattson and he was very much in support of a joint effort (single document) by the utilities in submitting preliminary information due in mid-March 2013. As Sempra pointed out, this would avoid some duplication and potential contradictions among the IOUs.

I'm happy to answer any questions you might have on the OIR which should be going out today or perhaps tomorrow.
