General Hagan and Paul -- just a heads up that PG&E crews are in the area responding to gas odor reports and that the Federal Building is being evacuated as a precaution.

Subject: 450 Golden Gate - Bld Evacuation

Our gas M&C and GSR responded to an odor of gas at 450 Golden Gate Ave and we have detected gas readings under and at the building foundation coming from the houseline on Turk St west of Larkin side. We are notifying 911 and ordering an evacuation of the Federal Building as a precaution. Supervisor in route to assist.

More to follow.
