Subject: FW: Follow-up to EITE Workshop - IOU Customer Accounts

Hi All,

Just wanted to let you know what I sent this request to members of your teams who attended the EITE workshop the other week. Sorry for not including you on the original email.

Best,

Jason

Subject: Follow-up to EITE Workshop - IOU Customer Accounts

Thank you all for attending the EITE and small business revenue allocation workshop the other week. Your participation was truly helpful.

The workshop raised a number of questions about how, in practice, we will connect the amount of money to return to each industrial facility with specific utility accounts.

I have to admit to being ignorant about the distinction and relation between customer accounts,

service accounts, meter numbers, etc., and I assume the nomenclature differs significantly by utility. So that Energy Division can work with ARB and the IOUs to make sure we are collecting and conveying the correct information to each party, it would be helpful if your teams could prepare a chart that explains the hierarchical relationship between different account, meter and billing-related information you collect.

Would it be possible for your teams to prepare something along those lines by next Wednesday or Thursday (3/6 or 3/7)? Perhaps the following week we can organize a call if we have clarifying questions.

Thanks in advance for your help. Please let me know if I should direct this question to colleagues of yours instead.

Best wishes,

Jason Houck
