General Hagan and Paul -- just a heads up that PG&E crews are in the area responding to gas odor reports and that the Federal Building is being evacuated as a precaution.

Subject: [Redacted] - Bld Evacuation

Our gas M&C and GSR responded to an odor of gas at [Redacted] and we have detected gas readings under and at the building foundation coming from the houseline on [Redacted] west of [Redacted]

We are notifying 911 and ordering an evacuation of the Federal Building as a precaution. Supervisor in route to assist.

More to follow.
