Re: Withdrawal of Advice Letter 4137-E - Electric Rate Schedule NEMVMASH
Deviation

Dear Mr. Randolph:

In accordance with General Order 96-B, Section 5.3, Pacific Gas and Electric Company ("PG&E") hereby withdraws Advice Letter 4137-E¹ without prejudice, which was filed on November 8, 2012, seeking the California Public Utilities Commission's approval for a deviation to PG&E Electric Schedule NEMVMASH² Virtual Net Energy Metering for Multifamily Affordable Housing (MASH/NSHP) With Solar Generator³. PG&E customer and developer is installing solar PV for a multifamily affordable housing complex in San Luis Obispo that has 17 master-metered accounts (and 17 service delivery points (SDP)). They wanted to apply for PG&E's NEMVMASH tariff using a single billing arrangement ("Eligible Low Income Development"). NEMVMASH requires that customers be individually metered, so a deviation was required to accommodate the master-metered accounts. However, recently the developer determined that it is more cost effective to interconnect as individual projects under Schedule NEM. Schedule NEM is already available to master-metered accounts. Therefore, the AL 4137-E deviation is no longer required.

Please contact Harold Hirsch at 415-973-1305 if you have any additional questions.

Sincerely,

Vice President – Regulatory Relations
