Subject: [spam] RE: R.11-10-023, Request to schedule additional workshop

ALJ Gamson,

DECA supports TURN's procedural recommendation and suggests that time be provided during the recommended workshop for parties to explain in detail their recommended changes either to staff's proposal or, based on the additional data provided by the CAISO, to that of the Joint Parties.

While staff is accepting informal comments on their proposal (due tomorrow), DECA believes the record would benefit from the opportunity for the recommended changes to be presented and analyzed in the context of a workshop.

Due to various email systems restrictions this email does not include all parties on the service list, but all parties have been notified via separate emails.

Thank you for your consideration,

Aram Shumavon

Dear ALJ Gamson,

First, I would like to inform you that I will be taking over the attorney responsibilities in this case from Hayley Goodson. I look forward to working with you and the parties.

Second, TURN would like to offer a procedural recommendation in response to your notice last Thursday that comments were being delayed until March, after Energy Division (ED) produces a revised flexible capacity proposal. Specifically, TURN urges the scheduling of a workshop for the parties to explore ED's revised proposal before the comments are due. The workshop and comment schedule should be coordinated to give parties adequate time to review the new ED proposal before the workshop and to prepare comments after the workshop.

Further, TURN understands that in the upcoming weeks, CAISO will be generating updated data relating to the need for the Joint Parties' proposal. In addition, TURN believes there is still a need to review other aspect of the Joint Parties' proposal (some of which parties raised in their December 26 Phase 2 comments). Additional workshop time is warranted to address these matters too. Again, TURN would request that the workshop be scheduled to allow sufficient time before the workshop to review the updated CAISO data. We appreciate the challenges the Commission faces in addressing the issues related to a new flexible capacity requirement. We offer these recommendations in the spirit of enabling the Commission to develop the necessary record on these issues as efficiently as possible.

Sincerely,

Tom Long  
Legal Director  
The Utility Reform Network (TURN)
