Subject: LLNL CES-21: PG&E's balancing account advice letter

Liza,

Just wanted to give you a heads up that PG&E is planning to file its CES-21 balancing account advice letter tomorrow as a Tier 1 AL (same as SDG&E). I think the AL is pretty straightforward as it follows the authorization provided for in D.12-12-031: two new balancing accounts, one electric and one gas, to record the different between the authorized revenue requirement and actual project expenses. Please let me know if you have any questions about this AL filing.

Also, the CES-21 team is working on the business case development in advance of the CES-21 workshop, which we hope to hold on February 20 at the Pacific Energy Center (an official notice will go out this week). Erik Jacobson and I plan to reach out to you prior to the workshop (he's probably already mentioned that to you).

Again, if you have any questions about the AL or the CES-21 project, feel free to contact me.

Thanks,
