Subject: RE: Project Development Status Report - Due March 1

Hello Everyone,

Attached to this email, please find the new PDSR template for the March 1, 2013 filing.

Please note that Energy Division staff reviewed prior versions of the PDSR template, and have taken the liberty of removing some of the lesser used fields (e.g. Secondary Developer Website, Site Owner, EIR Lead Agency, and others). Additionally, staff have added three new fields and amended one of the existing dropdown menus, in order to help us with our data needs. The new fields added are: Overall Status, Expected PCC Classification and Point of System Interconnection. Staff have amended the drop down options for the "Contract Type" field to remove outdated classifications, and include new classifications for the different RAM auctions.

Please contact Robert Blackney 415-703-3072 / robert.blackney@cpuc.ca.gov if you have any new questions related to the new PDSR template.

Thanks,

Subject: RE: Project Development Status Report - Due March 1

Hello Everyone,

Just wanted to provide a quick update regarding the template for the March 1, 2013 PDSR. Energy Division staff have made some minor changes to the template (removing many of the unused columns), and the revised template is currently under management review. Staff intend to provide each IOU with a revised template, once management has had the opportunity to sign off on the new template design. Staff anticipate that this process should be completed by Monday afternoon, and apologize for the slight delay.

If you have any questions related to the upcoming PDSR, please contact Robert Blackney 415-703-3072 / robert.blackney@cpuc.ca.gov.

Thanks,
