Subject: RE: It's another world altogether

Read carefully. Culture "effects" safety. "My" first safety symposium. Capt. Sullenberger as a "quest" speaker. And of course the guy will come on "california's dime." Altruism, as Terrie says.

To cut to the chase so you don't have to read to the bottom, this message from Captain Jody "Caveman" Bridges to Hagan: "I have a couple recommendations for your panel, 2 former Directors of the School now out in the civilian world leading some commercial safety efforts, Robert "Cosmo" Conway at Disney and Ken "Nubs" Neubauer at Futron Co. Also, just met Col Ken Cameron, USMC (ret), like you, a Platoon leader in Vietnam, ended up as a Space Shuttle Commander for NASA, and then was NASA's Deputy Director of Engineering and Safety. He lives in Houston, not sure if he would be interested but I think he would be great for your panel. Finally, Doc Figlock who runs the Naval Aviation's, Climate Surveys for the CO's, he is right down the road at Monterrey."

SO ladies, do YOU have a nickname? Obviously we need them if we are to move up in the world. I guess I will have to be Laura "Tex" Doll since Nubs is taken . . .

There are some good candidates for the climate panel , like the astronaut and the guy at Monterey.

General,
Here are some investigations training venues:
The venues we are most familiar with are:

- Air Force Mishap Investigation Course
<http://www.afsec.af.mil/organizations/education/amic.asp>
- Army Accident Investigation and Analysis Course
<https://safety.army.mil/training/AVIATIONSAFETYOFFICERTRAINING/AccidentInv>
- NTSB Training Center
http://www.nts.gov/trainingcenter/CourseInfo/sched_courses_2013.html
- Southern California Safety Institute <http://www.scsi-inc.com/course-catalog.php>
- USC Viterbi <http://viterbi.usc.edu/aviation/courses/>

Our investigator instructor thinks SCSi had the best curriculum.

OBTW: Talked to Ken Cameron about the Symposium and he would be interested in being on the panel....

General,

Would love to attend, if on California's dime...as you know CR and Sequestration is hitting our travel budget. You can count me in.

I have a couple recommendations for your panel, 2 former Directors of the School now out in the civilian world leading some commercial safety efforts, Robert "Cosmo" Conway at Disney and Ken "Nubs" Neubauer at Futron Co. Also, just met Col Ken Cameron, USMC (ret), like you, a Platoon leader in Vietnam, ended up as a Space Shuttle Commander for NASA, and then was NASA's Deputy Director of Engineering and Safety. He lives in Houston, not sure if he would be interested but I think he would be great for your panel.

Finally, Doc Figlock who runs the Naval Aviation's, Climate Surveys for the CO's, he is right down the road at Monterrey.

Pulling the string on investigation training out there. Will send when I have all the info, we have a couple places we use.

Below is contact info for potential panel members:

Former Director of School of Aviation Safety Robert Conway Manager of Quality Engineering at The Walt Disney Company Aerospace Safety Advisory Panel at NASA Adjunct Instructor at Embry-Riddle Aeronautical University
All I have is his email...Bob.E.Conway@disney.com

Ken Cameron, COL, USMC Ret, Platoon Leader, Naval Aviator, Astronaut, former Deputy Director NASA Engineering and Safety Center, also School of

Aviation Grad from ASO and ASC course.

Subject: Safety Symposium

Caveman,

How would you like to come to San Francisco 7-8 May and be on a panel at my

first Safety Symposium to speak on climate and culture as it effects safety. The Audience would be the presidents, CEO's, and board of directors of the gas companies in California and the Californian Public Utilities Commission Commissioners. About 100 people.

Who else would you recommend be on this panel? We have Capt Sullenberger as a quest speaker.

We will pay your freight.

Separate item: Where can I send my people to good accident investigation training and where is the format for an accident investigation not the JAG manual investigation, but mishap investigation? I am trying to establish a two track investigation process: Safety investigation with privileged information and a separate punitive investigation for responsibility.

Let me know what you think and I hope to see you in May.

Semper Fi,

BG H
