**Subject:** SAVE THE DATE -- CPUC Safety Symposium May 7-8

Greetings Commissioners and Directors,

The CPUC is currently planning a series of symposia titled “Forging a New Vision of Safety in California.” The first will focus on natural gas safety, convening at 1pm on May 7 and adjourning at noon on May 8. It will feature presentations by some of the nation’s most knowledgeable safety experts and industry leaders. It will be a unique opportunity for collaboration and innovative thinking about regulatory strategies, crisis management planning, and changes in the cultures of regulatory and industry organizations.

We will be sending formal invitations to you and other guests soon. In the meantime, please put this on your calendar.

Best wishes and I hope you will contact me or Liza Malashenko if you have questions or ideas.

Brigadier General (CA) Emory J. Hagan, III

Director, Safety and Enforcement Division

(916) 267-7201
