Subject: FW: Bechtel Seismic Report

Laura and Lise,

Thank you very much for helping out to trace the seismic studies today. I actually think that I ended up getting the needed file from somebody else at PG&E (see below). Now I'm trying to figure out how to get it to Senator Yee's office, as it's too large to e-mail, but that's a whole other topic.

Anyway, thank you very much for helping with the fire drill. I think that's all I need on this for now, but if something else comes up, I will let you know.

Thanks,

Liza

Elizaveta Malashenko

Subject: Bechtel Seismic Report

You have received 1 file.

Use the secure links below to download.

QUESTION 3758: As discussed over the phone, I'm looking for a copy of a report titled, Seismic Hazards of Gas Transmission Mains 101, 109, and 132. I believe it was performed by Bechtel in 1992. Please provide a copy as soon as you can.

RESPONSE 3758: The "Seismic Hazards Evaluation of Gas Transmission Mains 101, 109, and 132" was prepared in June 1991 by PG&E's Geosciences Department, and was included in PG&E's filing in the Records OII as document "P3-27419.pdf." PG&E has uploaded this document (P3-27419.pdf) to the CPUC secure ftp site.
