Subject: RE: Bechtel Seismic Report

Hi,

Thank you for helping out for this. We are trying to figure out how to get this file to somebody externally who has requested it. I understand that this file is public, since it was part of a record in a proceeding and has been redacted. Can you confirm that it would be ok for us to post it online and send the requesting party a public link?

Thanks,

Liza

Subject: Bechtel Seismic Report

You have received 1 file.

Use the secure links below to download.

QUESTION 3758: As discussed over the phone, I'm looking for a copy of a report titled, Seismic Hazards of Gas Transmission Mains 101, 109, and 132. I believe it was performed by Bechtel in 1992. Please provide a copy as soon as you can.

RESPONSE 3758: The "Seismic Hazards Evaluation of Gas Transmission Mains 101, 109, and 132" was prepared in June 1991 by PG&E's Geosciences Department, and was included in PG&E's filing in the Records OII as document "P3-27419.pdf." PG&E has uploaded this document (P3-27419.pdf) to the CPUC secure ftp site.
