Laura,  
No problem, I got exactly what I needed and appreciate the responsiveness. Thank you and have a great weekend!

Liza

Liza --

I do hope you have what you need. Sorry for the appearance of scattered responses today. People were doing all they could to be responsive and so we were just shooting things at you.

Fire drills are fun if they are done in a day! Have a good weekend. We are really appreciating your new perspective.

Laura

**Subject:** RE: Bechtel Seismic Report

Hi,

Thank you for helping out for this. We are trying to figure out how to get this file to somebody externally who has requested it. I understand that this file is public, since it was part of a record in a proceeding and has been redacted. Can you confirm that it would be ok for us to post it online and send the requesting party a public link?

Thanks,

Liza

### You have received 1 file.

Use the secure links below to download.

QUESTION 3758: As discussed over the phone, I'm looking for a copy of a report titled, Seismic Hazards of Gas Transmission Mains 101, 109, and 132. I believe it was performed by Bechtel in 1992. Please provide a copy as soon as you can.

RESPONSE 3758: The "Seismic Hazards Evaluation of Gas Transmission Mains 101, 109, and 132" was prepared in June 1991 by PG&E's Geosciences Department, and was included in PG&E's filing in the Records OII as document "P3-27419.pdf." PG&E has uploaded this document (P3-27419.pdf) to the CPUC secure ftp site.
