Subject: FW: 505 Van Ness CPUC Building Follow Up - Job Scheduled for Monday March 25th, 9 AM

Michelle

Good heavens, fingers crossed on this one. It may amuse you to know that this job has been officially designed for "velvet glove" treatment, whatever that means!

It should be done on Monday, from what I understand. And perhaps it will still be cool enough to use those boilers.

Talk about taking a village.

We'll hold off on the celebration until it's over, but I do believe this is getting close.

Take care,

Laura

Subject: RE: 505 Van Ness CPUC Building Follow Up - Job Scheduled for Monday March 25th, 9 AM

Laura, As a follow up, I wanted to let you know that "T&R Gas Field Team" have scheduled

the job for this coming Monday, March 25th at 9 AM. There will be no service interruption because our field crews use a bypass. We informed our Dept. of General Services (DGS) customer by conference call and email and they confirmed; will coordinate with Nick and our crews. Our contacts are DGS Lee Radcliffe Regional Mgr. and local DGS Building Manager David Omosheyin. The DGS personnel manage the building located at 505 Van Ness for the CPUC.

Please reply if you have any questions.
