Julie

We got the news yesterday that you're returning to the ALJ Division. Sounds like a good next move for you; I know it's good for the ALJ Division. The last few years have been such an intense time. You have been a model of grace under pressure and the highest professionalism. I always looked forward to meeting with you, regardless of how difficult the news. Just want you to know that I and others here have greatly appreciated working with you in your CPSD/SED capacity and look forward to the next phase.

On a personal note, I hope this move will provide an opportunity for a bit of a break between engagements and that you can return ready to focus to some new and interesting issues. When you are settled I'd really like to have lunch or coffee.

Meanwhile, congratulations on the great contributions you made to CPSD and the new ones ahead.

All the best,

Laura
