Subject: RE: PG&E's Emergency and Disaster Preparedness Plan Review

Ms. Allen:

Thank you for the email. The Electric Safety and Reliability Branch (ESRB) is definitely interested in attending some of the regional meetings, based on ESRB availability, to see the process and the feedback received. It appears that the schedule did not make it through in your last email. If you could send the schedule over, ESRB will look it over and let you know which meeting or meetings we may send to observe the process.

Thank you for your time and attention.

Sincerely,

[Redacted]

Program & Project Supervisor

Subject: PG&E's Emergency and Disaster Preparedness Plan Review

Redacted

Pursuant to Public Utilities Code section 768.6 (AB 1650, 2012), PG&E is hosting a series of regional meetings to provide key county and city representatives an opportunity to provide written and verbal comments on the Company's electric emergency and disaster preparedness plans. Attached are copies of PG&E's Electric Emergency Operations Plan and Fire Prevention Plan.

The planned meetings will include a presentation by a member of PG&E's Electric Emergency Preparedness and Public Partnerships team intended to provide context to the plans. We will then provide an opportunity for feedback and/or questions regarding the plans. If follow up meetings would be beneficial we will support scheduling and participation.

Below is a schedule showing the location and time of PG&E's regional public meetings. These meetings are open to the public; however copies of the plans will only be available to designated public sector contacts.

Please let me know if you have any questions or would like additional information.

Thank you,

Meredith Allen
