Subject: Data Request Follow up

Dear Erik

I am writing this as a follow up to the phone message I left you this morning. Please make it sure it gets to someone who can deal with. So far, I have not heard back from the PG&E people I have contacted and this request needed to be filled today. The following was sent out on Monday.

The CPUC Energy Division staff requests data regarding the procurement contract dates for gas-powered generation facilities that came online starting in 1998. If you can please fill out the missing data in the attached spreadsheet and return it to me by 4 pm Thursday, March 7th Alexander.Cole@cpuc.ca.gov. I am sorry about the fast turnaround time. This information has been requested by the commissioners.

As regards the specifics of the spreadsheet, it contains a list of generation facilities (Column A) that are or have been contracted to PG&E. We are asking for the start and end dates for the *original* contract and the capacity contracted for (columns C through E) and, if the facility has a current contract as of March 1st, 2013, the same information should be provided for the current contract (Columns G through J). If any of the facilities has multiple contracts, please add a new row or rows to accommodate this additional data.

Thank you for your help in providing this data. If you have any questions or specific concerns or cannot meet this deadline, please contact me as soon as possible.

Best Regards,

Sasha Cole
