A very good paper. It explains a lot of what I have been talking about.

Have good weekend everyone.

General, Would love to attend, if on California's dime...as you know CR and Sequestration is hitting our travel
budget. You can count me in. I have a couple recommendations for your panel, 2 former Directors of the School
now out in the civilian world leading some commercial safety efforts, [Redacted] at Disney and
[Redacted] at Futron Co. Also, just met Col [Redacted] USMC (ret), like you, a Platoon leader in
Vietnam, ended up as a Space Shuttle Commander for NASA, and then was NASA's Deputy Director of
Engineering and Safety. He lives in Houston, not sure if he would be interested but I think he would be great for
your panel. Finally, [Redacted] who runs the Naval Aviation's, Climate Surveys for the CO's, he is right down
the road at Monterrey. Pulling the string on investigation training out there. Will send when I have all the info, we
have a couple places we use. Below is contact info for potential panel members: Former Director of School of
Aviation Safety [Redacted] Manager of Quality Engineering at The Walt Disney Company Aerospace Safety
Advisory Panel at NASA Adjunct Instructor at Embry-Riddle Aeronautical University All I have is his
email. [Redacted] COL, USMC Ret, Platoon Leader, Naval Aviator, Astronaut,
former Deputy Director NASA Engineering and Safety Center, also School of Aviation Grad from ASO and ASC
course. BIO: [Redacted]

[Redacted] President Advanced Survey Design - they do CSA/MCAS for
the USN and USMC [Redacted] / Region United
States Phone [Redacted] Former Director of School of
Aviation Safety [Redacted] Technical Director, Aerospace Safety Futron Corporation [Redacted]
[Redacted]

[Redacted] Finally, OBTV: USMC is looking at piloting our course for a 6 day
USMC Ground Safety Officers course for PCO's of ground units. Thanks for a copy of your brief. Attached is an
interesting article on safety culture if you would like a good read over the weekend. V/r [Redacted] -----Original

Symposium [Redacted] How would you like to come to San Francisco 7-8 May and be on a panel at my first Safety
Symposium to speak on climate and culture as it effects safety. The Audience would be the presidents, CEO's, and
board of directors of the gas companies in California and the Californian Public Utilities Commission
Commissioners. About 100 people. Who else would you recommend be on this panel? We have [Redacted]

as a quest speaker. We will pay your freight. Separate item: Where can I send my people to good accident investigation training and where is the format for an accident investigation not the JAG manual investigation, but mishap investigation? I am trying to establish a two track investigation process: Safety investigation with privileged information and a separate punitive investigation for responsibility. Let me know what you think and I hope to see you in May. Semper Fi, BG H Brigadier General (CA) Emory J.
