Laura,

Sure. I actually can't see the number in the conference room because it's perpetually booked and didn't get a chance to view it yesterday. If you would like to host that's great. What number?

Thanks,

Franz

Franz

Would it be helpful for you to use our call-in number?

I'll be in Texas on Friday and don't think I'll be able to call in, but Dan and Jonathan will definitely be on the call.

Laura

Folks,

This Friday 3/8 at 3PM appears to be the best time for this teleconference, though I'm awaiting final confirmation from Sempra. I'll confirm with our conference room staff and send out the call-in number once I get it. But please keep that 3-4PM time block open on Friday for now.

Thanks,

Franz

Folks,

We'd like to schedule a check-in conference call sometime this week or next to see how things are moving along in terms of the preliminary information portion of the proceeding.

Please let me know some preferred days and times so I can set up a good time. We might also have Jennifer Kalafut, advisor to the presiding Commissioner, on the call.

Also, we're expecting a ARB/OEHHA presentation at the first workshop, tentatively scheduled for March 27 or so (on the same day as the prehearing conference) to talk about human safety

concerns, and we'd like a similar presentation by the utilities and open up the floor to Q&A. We can discuss the details on the call, but this is the plan for now.

Please let me know if you have any questions or comments.

Thanks,

Franz
