Subject: Follow up email - PG&E and MEA's data sharing

Hi Dawn and Sid,

Thank you for your time yesterday. I just wanted to touch base regarding the data sharing issues.

With regards to Interval Smart Meter data sharing mechanism it is our understanding that both MEA and PG&E will hold a meeting with PG&E's IT team to further streamline the reporting mechanism.

On the issue regarding additional customer data required for energy efficiency programs, could you refer us to the rules/ processes that require entities to undergo "security review" in order to get bundled customer data. I am also including Bruce and Taaru in this conversation as their section handles non-residential energy efficiency programs and will be following this issue.

I would also like to take this opportunity to introduce, Will Maguire, our new CCA analyst in the Market Structure and Design Section. My supervisor Jonathan and I have been working with Will and he is also aware of the issues at hand.

Let us know if you have any questions...

Manisha Lakhanpal
