Rules and rates

You may be eligible for a lower rate. Find out about optional rates or view a complete list of rules and rates, visit www.pge.com or call 1-800-743-5000.

If you believe there is an error on your bill, email info@pge.com, or call 1-800-743-5000 to speak with a representative. If you are not satisfied with our response, contact the California Public Utilities Commission (CPUC), Consumer Affairs Branch, 505 Van Ness Avenue, San Francisco, CA 94102, 1-800-649-7570 or 415-703-2032 (TDD/TTY).

To avoid having service turned off while you wait for a CPUC decision, enclose a deposit check (payable to the CPUC) for the disputed amount and a description of the dispute. The CPUC will only accept deposits for matters that relate directly to billing accuracy. If it is not possible for you to pay your deposit, you must advise the CPUC. PG&E can not turn off your service for nonpayment while it is under review by the CPUC, however, you must continue to pay your current charges to keep your service turned on.

If you are not able to pay your bill, call PG&E to discuss how we can help. You may qualify for reduced rates under PG&E's CARE program or other special programs and agencies may be available to assist you. You may qualify for PG&E's Energy Savings Assistance Program which is an energy efficiency program for income-qualified residential customers.

Important definitions

Visit: www.pge.com/billexplanation for more definitions.

Tier 1 (Baseline) allowance: All residential customers are given a Tier 1 (baseline) allowance - a CPUC approved percentage of average customer usage during summer and winter months. Your Tier 1 allowance provides for basic needs at an affordable price and encourages conservation. Your allowance is assigned based on the climate where you live, the season and your heat source. As you use more energy, you pay more for each tier of usage.

Electric Tier	% of Baseline
1	0% - 100%
2	101% - 130%
3	131% - 200%
4	> 200%
Gas Tier	% of Baseline
1	0% - 100%
2	> 100%

DWR bond charge: Recovers the cost of bonds issued by the Department of Water Resources (DWR) to purchase power to serve electric customers during the California energy crisis. DWR bond charges are collected on behalf of DWR and do not belong to PG&E.

DWR power charge: Included in generation charges for energy provided by the Department of Water Resources. DWR receives \$0.0875/kWh.

Power Charge Indifference Adjustment (PCIA): Ensures that customers who purchase electricity (generation) from non-PG&E suppliers pay their share of generation costs acquired to serve them prior to their departure, unless otherwise exempt.

Explanation of Calculations

[text4] The NEM Energy Charges represents the balance for your net usage since the start of your true up period; these charges are calculated each month but are not billed until the end of the true up period. At the end of the true up period, you will be billed for any outstanding NEM Energy Charges minus the YTD Electric Minimum Charges. If your total cumulative energy charges are negative at the end of the true up period, the energy credit is zeroed out and not carried over to your next true up period. If your total net usage is negative at the end of your true up period, you may qualify for Net Surplus Compensation that will be reflected in your true up bill.

[text5] Based on your current NEM charges, the balance due at true up is:

Total YTD NEM Energy Charges before taxes	\$1,871.42
Less YTD Minimum Charges	- 31.64
<u>Estimated Taxes</u>	<u>2.56</u>
Additional NEM Charges Due at True Up	\$1,842.34
