Subject: GHG revenue allocation outreach/education - Steps forward

Hi Redacted

Let's move forward with a solicitation for a 2014-2015 GHG revenue allocation outreach/education consultant based on the list of companies the utilities have on master service agreements.

Can you help us define a concrete timeline for the next four weeks? I assume that to reach the April 1 goal we will need to have a solicitation announced by the end of this week, and allow two weeks for companies to reply and one week to evaluate, but even that seems borderline impossible. Any thoughts?

Can your team send Energy Division a draft of your scope of work for us to review as soon as possible?

Apologies for the delay getting you a response about the MSA list – the Commission meeting slowed things down a bit last week.

Thanks,

Jason
