Subject: Update: CPUC Safety Symposium Update -- action/next steps

All,

Panel 2, is now 5 speakers, which is a nice balance: 2 commission, 2 utility, 1 public pipeline safety advocate. I am attaching the latest updated workbook.

Panel 3 is complete!

Panel 1 and Panel 2 need the attention of Laura, Peter and Kim to confirm speakers (tab 2 in the workbook). It is very important to get invitations to speakers out by the end of this week, so we'll need you to confirm as soon as possible.

Please provide any updates/additional comments on the flow, agenda, attendees before our weekly Friday Call at 1:30 PST (Dial In # [Redacted])

Thank you,

Jane
