Subject: RE: AV Equipment for Safety Symposium

Hello,

I can address the AV question below, and let conference center staff answer any remaining questions.

Thanks.

Cyrus Ip

Subject: AV Equipment for Safety Symposium

Cyrus and Robert,

There recently was a string of e-mails on audio/visual equipment for the Safety Symposium May 7th and 8th. I want to make sure that we are on track with getting everything set-up and that you have what you need. Here is a draft list of requirements that we have:

- Podium with microphone – fixed AND lavalier? – Yes, we will provide a podium wired microphone & wireless lavalier microphone,
- Ability to show DVDs – Yes, there will be access to a DVD player in the Auditorium connected to the house projector.
- Ability to show PowerPoint presentations – Yes, we can help connect your laptop to the projector.
- Lavalier mikes for panelists (6 mikes on a panel) - No, the panelists microphones will need to be wired table top microphones. Usually one per every two panelists. Please let us know how many they have.
- Roaming microphones – at least 2 – No, we only have one wireless handheld microphone available.

In addition, we have a few questions about who manages the following:

- Panel setup – comfortable chairs vs people sitting at tables?
- Who manages room temp?
- Lighting?
- Any special safety info we need to convey?

Also, we are planning to have a “dry run” on May 6th. We’ll need to have some AV support to make sure that everything is functioning properly. Please let us know what we need to do to get all the details finalized.

Kind Regards,

Liza

Elizaveta Malashenko
