Subject: RE: call re Green Button for MEA?

Alope –

Here is a list of what we've provided and when.

yours,

sid

Sid-

[Redacted] just compiled a rough historical account of formal MEA data requests for a Malnight/Helen meeting around MEA's EE data request, see below. I am out of pocket running a training in Richmond all morning –

[Redacted], if you could please walk Sid through this as needed I would appreciate it.

2012

11/28/2012: Requested item #16 for October 2011 to Sept 2012 covering Marin County and the City of Richmond

02/14/2012: Requested items #16 and #17, and #2 for 2011 calendar year covering Marin County

2011

11/14/2011: Requested items #16 and #17 for four cities in Marin County (Larkspur, Novato, Corte Madera and Ross)

03/15/2011: Requested items #16 and #17 for 2010 in Marin County

2006 – 2009: Data was given for what appears to be #16 (I don't have record of the actual request

Please note that in January of this year MCE requested interval data for the following two customers:

- Marin Municipal Water District
- North Marin Water District

It appears when we told them it was a formal data request under the tariff they changed their mind.

The # reference above is the CCA-INFO Tariff here and below:
http://www.pge.com/tariffs/tm2/pdf/ELEC_SCHS_E-CCAINFO.pdf

16. Customer-specific information from the current billing periods as well

as prior 12 months consisting of the following billing information:

meter number, service agreement number, name on agreement,

service address with zip code, mailing address with zip code,

telephone number, monthly kWh usage, monthly maximum demand

where available, Baseline Zone, CARE participation, End Use Code

(Heat Source), Service Voltage, Medical Baseline, Meter Cycle, Bill Cycle, Balanced Payment Plan and other plans, HP Load and Number of Units, monthly rate schedule for all accounts within the CCA's territory, per request. In addition, PG&E will provide the CCA the following additional information regarding customers currently enrolled in its CCA service: current and historical billing information for non CCA services provided by PG&E or other service providers(provided on a cd rom/zipped file)

Per request \$920.00

17. Customer-specific information consisting of: service agreement number, monthly interval meter data where available, and rate schedule for all accounts within the CCA's territory, per request (provided on a cd rom/zipped file)

Per request \$920.00

#17 includes all customer monthly interval data where available (meaning interval data that we actually bill with as opposed to SM data for an anchor billed account).

In addition we provide MEA detailed data required for billing including interval data when available for all of their customers through the EDI process every day. We also provide them (on an ad hoc basis) a comprehensive report that gives account information and non-interval usage electric data for all customers in their service territory, including bundled customers (this is called the 4013 report and not under the CCA-INFO tariff). [Redacted] can provide more detail around these two data sources if needed. Thanks-

Eric

Sid:

To follow up, could PG&E please clarify the details of prior data transfers to MEA (when, granularity of data, # customers, etc.). Could we have this info by tomorrow morning (before 11)?

Alope --

That's fine. Does 130p work for you on Wed? Let's schedule the following meeting during the Wed meeting so we make sure we have the right persons.

yours,

sid

Sid:

We can keep the two topics separate. Let's do a short call on just the MEA issue. The team can take more time on CDA. We would like the latter to be a sit-down briefing/meeting. Thx.

Alope –

I presume that we have two agenda items – green button connect and MEA, and CDA design. I will try for Wed pm at 130p, if that works for you. For the CDA design, I'm going to include [Redacted] from Customer Care.

yours,

sid

Subject: call re Green Button for MEA?

Sid:

I called Mike but didn't get him. Let's just schedule a 30 min call next week with you/Mike Glass on this subject. Some options are T (11-12, 3-4:30), or W.
