Subject: Another Chinese group would like to visit PG&E

Dear PG&E Folks:

A Chinese delegation from China Power International (CPI) would also like to visit PG&E. Would like to know if you can accommodate their visit.

The delegation consists of 13 members headed by CEO of the CPI ---- Xiaolin Li, who is the daughter of the previous Chinese Premier Peng Li.

CPI is one of the five big power generation companies in China. While they are mainly interested in renewable generations, they also want to know more about PG&E's transmission and distribution in general.

If it is possible, they'd like to visit PG&E on April 15 in the morning. They are proposing that the length of meeting to be 1-2 hours.

I am sorry that I couldn't email this request to you sooner. I just got the information a while ago.

Thank you very much for your accommodation in the past!
