Subject: RE: Ad Hoc Data Requests

Thanks Erik. Just to clarify, when exactly are you referring to when you say "energy supply". Do you mean procurement? Thanks.

**Subject:** Ad Hoc Data Requests

Cynthia, Molly, Judith and Gurbux,

We recently had an experience where PG&E dropped the ball on a data request from Energy Division related to an energy supply issue. Part of the problem on our end was that the request bounced around to the wrong individuals and there was no clear accountability for handling the request because it was not part of a proceeding. On a going forward basis, we would appreciate it if Energy Division could please send all PG&E **ad hoc** (i.e., requests not related to a specific proceeding) **energy supply data requests** to Sujata Pagedar ([SXPGE@pge.com](mailto:SXPGE@pge.com), 415-973-9801). [Redacted]

[Redacted]. This will help us get ad hoc requests in the hands of the right technical experts as soon as possible and improve our responsiveness. Data requests related to specific proceedings should continue to go to the appropriate PG&E case manager.

Thanks,

Erik
