Subject: Re: LMEC and Gilroy Steam Numbers

Hi Michael,

Glad to hear from you as your first on my list to call tomorrow.

I do have information for you and some our operations group continues to compile. Our FERC operating standards and FERD efficiency standards are calculated annually and provided to PG&E though I do not believe they are public. For that reason, I would prefer to bring to you in person if possible. We are also working on some more detailed questions posed by both your Commissioner and one of the other offices. That data is also confidential so would also like to present in person.

In summary, I can say that my previous representation at our meeting about the range of operating standards (10-20%) and efficiency standards (45-55%) for both plants was correct.

I have a meeting with our operations team tomorrow on other questions. Can I contact you tomorrow afternoon about getting together later this week?

Thanks.  
Avis

Avis

Thank you again for your time last week on the LMEC and Gilroy draft resolutions. As Commissioner Ferron indicated last week, our office would really like to see the useful thermal numbers dedicated /used for the steam host in a CHP application. What's your ETA on those numbers (isn't it already part of Calpine contractual agreement?)

Thanks

Michael

Michael Colvin
