RE: Pacific Gas and Electric Company Request for Extension
of Time to Comply with Ordering Paragraph 2 of Decision 12-04-012
(A.11-06-026)

Dear Mr. Clanon:

Pursuant to Rule 16.6 of the California Public Utilities Commission's (Commission) Rules of Practice and Procedure, Pacific Gas and Electric Company (PG&E) hereby requests an extension of time to comply with Ordering Paragraph (OP) 2 of Decision (D.) 12-04-012 which directs PG&E to implement world generation charges applicable to continuous direct access customers who returned to bundled service and then returned to direct access service.

OP 2 of D.12-04-012 states that "Pacific Gas and Electric Company, Southern California Edison Company and San Diego Gas & Electric Company shall implement the changes needed to bring their tariffs and billing practices into conformity with the clarifications to Decision 08-09-012 adopted in OP 1 within 12 months of the mailing of this order". The mailing of the order was on April 24, 2012.

PG&E requests an extension of time to April 1, 2014 to comply with OP 2. PG&E is currently working on billing system changes for the bill redesign, revised Electric Vehicle Rates, and NEMS billing, as well as summer and winter seasonal rates. Allowing PG&E to implement the new world generation charges after PG&E has launched its new bill redesign would allow for a smooth transition of the new world generation charges into the new bill format. At this time, the new world generation charges would impact only 23 customer accounts.

Consistent with OP 3, the new world generation charges would apply prospectively when the new world generation charges are implemented in PG&E's tariffs and billing practices.

PG&E respectfully requests that it be allowed an extension of time to April 1, 2014 to comply with OP 2 of D.12-04-012.

If this request is granted, PG&E will promptly transmit the Executive Director's approval to all parties to Application 11-06-026.

Thank you for your consideration of this request.

Best regards,

Brian K. Cherry
VP Regulatory Relations
