Hi, Paul.

Just wanted to follow up from our conversation yesterday about your intent to talk with President Peevey about the LCC tax neutrality provision and whether a meeting with the negotiators of this term of the Stip was even necessary.

In particular, I understood you to say you would be talking with him about where we are in the process and whether Mike would be able to give Frank the cover he needed to accept the risks around whether our (PG&E and SC) current interpretation that the intent of the Stipulation language and our current implementation approach around tax neutrality is satisfactorily within the four corners of the Stipulation or whether Mike

simply deferred to Frank and Joel's interpretation.

Did you get the chance to discuss this with him?

Thanks,

Mike
