Subject: AB1900 (R.13-02-008) - Discussion of AB1900 proceeding on biomethane injection

Folks,

ARB is planning to host a small stakeholder/ARB/OEHHA/utility teleconference on April 10, 2013, at 9-12:30 in the morning (tentatively). If you didn't receive an email from them and are interested in attending, please let Paul Milkey know at [pmilkey@arb.ca.gov](mailto:pmilkey@arb.ca.gov)

Topics of discussion will likely include dilution factors and information sharing between utilities and ARB/OEHHA. In fact, any information that the utilities would like to share with ARB/OEHHA should be done ASAP in order to have any influence on their May 15 report. I've spoken with SoCalGas on this already. As for PG&E, if PG&E has information on worker exposure scenarios, trace constituents, or anything else, ARB/OEHHA request that that information be sent as soon as possible at [pmilkey@arb.ca.gov](mailto:pmilkey@arb.ca.gov)

I've attached e-copies of the workshop materials in case anyone hasn't received a copy yet, as well as my (very rough) unofficial transcript of the Q&A sessions at the workshop.

Thanks,

Franz
