ADMINISTRATIVE AND GENERAL EXPENSES

I. INTRODUCTION

This exhibit presents the analyses and recommendations of the Division of Ratepayer Advocates (DRA) regarding Pacific Gas and Electric Company's (PG&E) forecasts of Administrative and General (A&G) expenses for Test Year (TY) 2014 and capital expenditures for 2012 through 2014.

The categories of A&G expenses cover general expenses not chargeable to a specific functional activity. A&G expenses are recorded in the Federal Energy Regulatory Commission (FERC) Uniform System of Accounts 920 through 935. Many items comprise A&G expenses including outside services employed, injuries and damages, franchise taxes, regulatory commission expenses, miscellaneous general expenses, and maintenance of general plant. PG&E's A&G-related capital expenditures are for Information Technology (IT) initiatives proposed by specific A&G departments.

This exhibit addresses, among other things, all costs associated with the following PG&E Company A&G-related departments:

- Finance Organization (Exhibit PG&E-9, Chapter 2)
- Risk and Audit Department and Insurance Expenses (Exhibit PG&E-9, Chapter 3)
- Law Department and Related Costs (Exhibit PG&E-9, Chapter 6)
- PG&E Corporation and Pacific Gas and Electric Company Executive Offices; and Corporate Secretary Department (Exhibit PG&E-9, Chapter 7)
- A&G Ratemaking Adjustments (Exhibit PG&E-9, Chapter 10)

This exhibit also addresses PG&E Corporation-related costs in the following PG&E Company A&G-related departments:

- Human Resources Department and HR Technology (Exhibit PG&E-9, Chapter 4)
- Corporate Affairs – External Affairs Department (Exhibit PG&E-9, Chapter 9)

1 This exhibit addresses the IT expenses and capital expenditures for PG&E's
2 Finance Organization (5 projects), Risk and Audit Department (4 projects), and Law
3 Department (2 projects).

4 **II. SUMMARY OF RECOMMENDATIONS**

5 The following summarizes DRA's recommendations:

- 6 1. That \$262,000 be removed from Finance Organization's costs:
 - 7 a. That \$261,669 be removed from the Controller's Account 923
8 Outside Services external audit fees. DRA used a three year
9 average to calculated test year 2014.
- 10 2. That \$358,400 be removed from Finance Organization's IT expenses for
11 test year 2014 to reflect DRA's IT witnesses recommendations.
- 12 3. That \$473,000 be removed from 2013 IT capital expenditures to reflect
13 DRA's recommendation in Exhibit DRA-18 Shared Services & Information
14 Technology Costs.
- 15 4. That \$2.830 million be removed from Finance Organization's IT capital
16 expenditures for test year 2014.
 - 17 a. That \$1.951 million be removed for the Accounting Convergence
18 project that Security Exchange Commission has not adopted
19 International Financial Reporting Standards; and
 - 20 b. That \$878,500 be removed to reflect DRA's recommendation in
21 Exhibit DRA-18 Shared Services & Information Technology Costs.
- 22 5. That \$517,000 be removed from Risk and Audit Department's costs:
 - 23 a. That \$226,928 be removed from VP Chief Risk Officer's Account
24 923 Outside Services Corporation for lack of supporting
25 documentation as to why PG&E is forecasting costs;
 - 26 b. That \$123,000 be removed from Corporate Security Account 920
27 Administrative & General Salaries to reflect the duplicate labor
28 costs for retiring director and his/her replacement; and,
 - 29 c. That \$166,667 be removed from Corporate Security's Account 923
30 Outside Services to normalize one-time expense for feasibility
31 study.
- 32 6. That \$50.279 million be removed from Enterprise Risk Management and
33 Insurance Department's costs:
 - 34 a. That \$3.048 million be removed from Property Insurance to reflect
35 the use of 2012 recorded in calculating test year 2014 forecast;

- 1 b. That \$49.232 million be removed from Excess Liability Insurance to
2 reflect the use of 2012 recorded in calculating test year 2014
3 forecast the impact of DRA's Auditor's recommendation;
- 4 c. That \$2.132 million be removed from Directors & Officers Insurance
5 to reflect the use of 2012 recorded and Commission policy that
6 ratepayers and shareholders share costs 50/50; and,
- 7 d. That \$692,000 be removed from PG&E Corporation Property and
8 Liability Insurance as is duplication of insurance costs already paid
9 by ratepayers and is potential unwarranted subsidy of other non-
10 regulated activities.
- 11 7. That \$566,000 be removed for Risk and Audit Department's IT expenses
12 for test year 2014 to reflect DRA's recommendation in Exhibit DRA-18
13 Shared Services & Information Technology Costs.
- 14 8. That \$82,000 be removed from Risk and Audit Department's IT capital
15 expenditures for 2013 to reflect DRA's recommendation in Exhibit DRA-18
16 Shared Services & Information Technology Costs.
- 17 9. That \$21.6 million be removed from Risk and Audit Department's IT
18 Capital expenditures:
 - 19 a. That \$19.9 million be removed for Emergency Operation Center for
20 which PG&E has no specific site identified for this project; and,
 - 21 b. That \$1.7 million be removed from Risk and Audit Department's IT
22 expenses for test year 2014 to reflect DRA's recommendation in
23 Exhibit DRA-18 Shared Services & Information Technology Costs.
- 24 10. That \$1.797 million be removed from Law Department's costs:
 - 25 a. That \$1.558 million be removed from Settlements and Judgments
26 to reflect the removal of \$7.125 million in employment
27 discriminations suits before calculating four year average of
28 \$19.567 million; and,
 - 29 b. That \$239,949 be removed from Third Party Claims to reflect the
30 use of 2012 recorded adjusted to calculate a four year average of
31 \$14.649 million for test year 2014.
- 32 11. That \$93,000 be removed from Law Department's IT expenses for test
33 year 2014 to reflect DRA's recommendation in Exhibit DRA-18 Shared
34 Services & Information Technology Costs.
- 35 12. That \$8,000 be removed from Law Department's IT capital expenditures
36 for 2013 to reflect to reflect DRA's recommendation in Exhibit DRA-18
37 Shared Services & Information Technology Costs.
- 38 13. That \$125,000 be removed from Law Department's IT capital expenditures
39 for test year 2014 to reflect to reflect DRA's recommendation in Exhibit
40 DRA-18 Shared Services & Information Technology Costs.

14. That \$2.267 million be removed from PG&E Corporation and PG&E Executive Offices department costs:

- a. That \$735,179 be removed from Chairman, CEO President's Office costs to reflect the use on 2012 recorded to calculate a three year average of \$3.884 million;
- b. That \$1.208 million be removed from President's Office 's costs to reflect the use of 2012 recorded in calculating a three year average of \$2.849 million for test year 2014; and,
- c. That \$324,301 be removed from Directors' Fees & Expenses to reflect the unreasonable expenses:
 - i. That \$181,669 be removed to reflect the use of three year average for Committee Fees;
 - ii. That \$76,635 be removed to reflect the use of three year average after removing unreasonable costs (excessive tips, transportation costs, Board general lodging, Board dinner expenses, outside speaker, director education, and candidate interviews);
 - iii. That \$66,000 be removed for unreasonable quarterly retainer increase of ten percent.

1 **III. GENERAL OVERVIEW**

2 A&G expenses support and benefit all of PG&E's lines of business. There
3 are three distinct types of A&G expenses. Department costs cover support services
4 necessary for day-to-day operations and include services provided by the Finance,
5 Law, Risk and Audit, Executive Offices, and Corporate Secretary organizations.
6 Companywide A&G expenses include insurance premiums, settlements and
7 judgments, fees and other similar costs. The final type of A&G expenses is
8 associated with Information Technology and other capital projects.

9 PG&E's GRC process is based on a methodology of forecasting test year
10 expenses is a base-year costs. After the A&G organizations complete their
11 individual forecasts, PG&E makes adjustments to the ensure that only those costs
12 that should properly be borne by ratepayers are included in its GRC request. PG&E
13 allocates a portion of the forecasted costs to capital, removes costs associated with
14 below-the-line activities and non-utility affiliates, and removes benefit costs
15 associated with the labor of employees engaged in providing Non-Tariff Products
16 and Services.

17 **A. PG&E's Request**

18 PG&E's A&G departments cost forecast is six percent higher than 2011
19 adjusted recorded costs. The majority of this increase is attributable to annual
20 escalation over the three year period. The remaining increase addresses necessary
21 initiatives to be implemented to support PG&E's 2014-2016 operational goals.
22 PG&E's companywide A&G expenses 2014 forecast is 32 percent higher than 2011
23 adjusted recorded costs. This increase is largely driven by an increase in the costs
24 of insurance premiums. IT and other capital projects consist of IT projects designed
25 to support the A&G departments. In addition this includes the forecast for an
26 alternate Emergency Operations Center.¹

B. Authorized vs. Recorded Expenses

In PG&E's 2011 GRC, the Commission ordered the utility to provide periodic compliance filings showing authorized and recorded expenses and capital expenditures, by Major Work Category (MWC), for electric distribution, electric generation, and gas distribution.²

² Decision (D.) 11-05-018, *mimeo*, Ordering Paragraph 42, at pp. 98-99.

1 DRA provides the following historical comparison of authorized versus
 2 recorded expenses for the cost categories addressed in this exhibit.

7 **IV. DISCUSSION / ANALYSIS OF FINANCE ORGANIZATION COSTS**

8 This section discusses PG&E's Finance Organization costs. The Finance
 9 Organization is responsible for functions such as raising capital, communicating with
 10 investors, providing financial forecasts, working with the other organizations within
 11 PG&E to plan and manage budgets, filing financial statements with the Securities
 12 and Exchange Commission (SEC) and other regulatory bodies, making all
 13 necessary tax filings with federal and state authorities and managing payment
 14 services for employee and vendors.

15 The Finance Organization consists of five sub-departments:

- 16 • SVP and CFO
- 17 • Business Finance
- 18 • Controller
- 19 • Investor Relations
- 20 • Treasury

21

1 The Finance Organization is forecasting department costs of \$45.1 million,
 2 which is 15.1 percent higher than the 2011 recorded adjusted amount of \$39.2
 3 million, which primarily represents the cumulative impact of wage escalation from
 4 2011 through 2014.

5 PG&E is forecasting Bank Fees of \$5.755 million, which is 20.3 percent
 6 higher than the 2011 recorded adjusted amount of \$4.782 million. The bank fees
 7 forecast for 2012-2014 were based on the actual expenses for 2011, adjusted for
 8 any planned capital structure changes and anticipated changes in contract terms.

9 **Table 16-6**
 10 **2007-2012 Recorded Data for Finance Organization**
 11 **(In Thousands of Dollars)**

Description	2007	2008	2009	2010	2011	2012
920 Admin & General	\$ 25,341	\$ 27,062	\$ 28,921	\$ 25,889	\$ 26,035	\$ 26,666

15
 16 PG&E is forecasting Remaining Vacation of \$5.098 million, which is a 54.35
 17 percent decrease from 2011 recorded adjusted amount of \$10.064 million.
 18 Remaining vacation represents the vacation liability to employee vacation benefits
 19 for all of PG&E. The remaining vacation calculation represents the difference
 20 between accrued vacation and vacation taken and/or paid out for all employees.

21

1 The following table summarizes PG&E's request and DRA's recommendation
 2 regarding test year expenses for the Finance Organization.

7
 8 The Finance Organization is planning five IT projects to ensure compliance
 9 with new accounting regulations, maintain core financial systems, and improve the
 10 usability and enhance the capability of PG&E's core financial systems. PG&E
 11 forecasts \$2.560 million for expenses in 2014, and \$7.398 million for capital in 2012,
 12 \$3.380 million for capital in 2013, \$8.226 million for capital in 2014, \$7.940 million for
 13 capital in 2015, and \$6.812 million for capital in 2016. PG&E developed the costs
 14 forecast for each IT project using PG&E's application development concept
 15 estimating tool.³

16 The following table summarizes PG&E's request and DRA's recommendation
 17 regarding the Finance Organization IT expenses and capital expenditures.

9

A. Senior Vice President and Chief Financial Officer

The Senior Vice President (SVP) and Chief Financial Officer (CFO) office has overall responsibility for PG&E's financial functions.⁵ The SVP and CFO's office also includes an assistant and a chief of staff that report directly to the SVP and CFO. The chief of staff is responsible for providing the analytics, metrics monitoring, and process improvement initiative support for the Finance Organization. The SVP

⁴ Ex. PG&E-9, p. 2-31.

⁵ Ex. PG&E-9, p. 2-3.

1 office consisted of four employees and there is no change in the number of
 2 employees forecasted for 2014. The SVP and CFO currently remain at PG&E
 3 Corporation.

4 The SVP and CFO office forecasted costs for 2014 are \$2.479 million which
 5 represents 5.5 percent of the total Finance Organization request. The forecast is
 6 \$0.6 million or 31.5 percent higher than the 2011 recorded adjusted amount of
 7 \$1.885 million. The adjustments to recorded 2007 through 2011 included
 8 reorganization and what PG&E calls “the San Bruno Incident.” PG&E adjusted out
 9 \$265,768 in 2010 and \$1,251,968 in 2011 related to San Bruno.⁶ The SVP and
 10 CFO consist of two sub-departments, CFO Immediate Office and Performance &
 11 Process Improvements. The following table shows the recorded adjusted costs:

12 **Table 16-10**
 13 **2007-2012 Recorded Data for SVP and CFO**
 14 **(In Whole of Dollars)**

Description	2007	2008	2009	2010	2011	2012
920 – Admin & Gen Salaries	\$147,722	\$682,459	\$858,363	\$251,033	\$318,448	\$458,115
921 – Office Supplies & Ex.	\$147,007	\$756,917	\$218,271	\$37,185	\$152,039	\$34,585
923 – Outside Svs – Utility	\$630,246	\$503,237	\$731,061	\$142,121	\$137,642	\$734,782
923 – Outside Svs. – Corp	\$1,792,829	\$1,661,540	\$1,529,377	\$1,157,220	\$1,276,809	\$919,967
Total	\$2,717,805	\$3,604,153	\$3,337,072	\$1,587,559	\$1,884,938	\$2,147,449

15 Source: 2007-2011 data from Ex. PG&E-9, p. W p 2-21. 2012 data from DRA-PGE-108, Q4
 16 Attachment 3

17 **1. CFO Immediate Office**

18 The CFO Immediate Office is forecasting \$2.094 million which is 39.81
 19 percent increase from the 2011 recorded adjusted amount of \$1.498 million. The
 20 major cost driver is Outside Services-Corp. DRA has reviewed PG&E’s testimony
 21 and accompanying workpapers and does not oppose PG&E’s test year 2014
 22 forecast.

23 **2. Performance & Process Improvement**

24 The Performance & Process Improvement section is forecasting \$384,585
 25 which is 0.57 percent decrease from the 2011 recorded adjust amount of \$386,790.

⁶ Ex. PG&E-9, workpapers p. WP 2-25.

1 The major reason for the lower costs is that PG&E is not forecasting any services to
 2 be provided by PG&E Corporation for the test year 2014.⁷ DRA has reviewed
 3 PG&E's testimony and accompanying workpapers and does not oppose PG&E's test
 4 year 2014 forecast.

5 **B. Business Finance**

6 The Business Finance Department is responsible for budgeting, financial
 7 planning, and forecasting activities for all of PG&E's organizations and
 8 communication of that information internally. The Business Finance Department is
 9 composed of the VP's office and three sections: Business Finance Services,
 10 Economic and Project Analysis, and Finance Process and Systems. The Business
 11 Finance Department's forecasted costs for 2014 are \$8.017 million, which
 12 represents 17.8 percent of the total Finance Organization request. This forecast is
 13 \$8.017 million which is a 19.4 percent increase from the 2011 recorded adjusted
 14 amount of \$6.713 million. The adjustments to recorded 2007 through 2011 included
 15 reorganization. The Business Finance Department forecasted increase is primarily
 16 due to wage escalation, filling vacancies, and lower costs directly charged to the
 17 lines of business.

18 **Table 16-11**
 19 **2007-2012 Recorded Data for Business Finance**
 20 **(In Thousands of Dollars)**

Description	2007	2008	2009	2010	2011	2012
920 Admin & General	\$ 4,677	\$ 5,372	\$ 6,269	\$ 6,295	\$ 6,057	\$ 6,235
921 Office Supplies	\$ 831	\$ 334	\$ 345	\$ 379	\$ 278	\$ 318
923 Outside Svc Utility	\$ 5,269	\$ 2,067	\$ 392	\$ 144	\$ 289	\$ 1,121
923 Outside Svc Corp	\$ -	\$ -	\$ -	\$ -	\$ 89	\$ 138
Total	\$ 10,777	\$ 7,774	\$ 7,006	\$ 6,818	\$ 6,713	\$ 7,812

21
 22 Source: 2007-2011 data from Ex. PG&E-9, p. W p 2-21. 2012 data from DRA-PGE-108, Q4
 23 Attachment 3

⁷ See response to DRA-PG&E-003-DFB, Q. 13.

1 **1. Economic & Project Analysis**

2 The Economic and Project Analysis section is responsible for providing PG&E
3 with financial and economic analysis services, advising senior management on
4 major financial decisions, and developing and facilitating management and
5 governance of projects. The Economic and Project Analysis section is forecasting
6 \$1.712 million which is a 31.03 percent increase form 2011 adjusted recorded costs
7 of \$1.306 million. DRA has reviewed PG&E’s testimony and accompanying
8 workpapers and does not oppose PG&E’s test year 2014 forecast.

9 **2. Finance Process & Systems**

10 The Finance Process & Systems section is responsible for providing the
11 Finance Organization with operational support to enable efficient financial processes
12 including access to systems and accurate financial information. Finance Process &
13 Systems is forecasting \$3.677 million which is a six percent increase from 2011
14 adjusted recorded costs of \$3.446 million. DRA has reviewed PG&E’s testimony
15 and accompanying workpapers and does not oppose PG&E’s test year 2014
16 forecast.

17 **3. Business Finance Services**

18 The Business Finance Services section is responsible for the financial
19 planning, forecasting, and reporting of every line of business within PG&E. Business
20 Finance Services is forecasting \$1.903 million which is a 25.58 percent increase
21 from 2011 adjusted recorded costs of \$1.516 million. DRA has reviewed PG&E’s
22 testimony and accompanying workpapers and does not oppose PG&E’s test year
23 2014 forecast.

24 **4. VP Business Finance**

25 The VP Business Finance section is responsible for overseeing the process
26 to establish PG&E’s and its lines of business operational and financial plans,
27 working to evaluate, set, and adjust financial performance targets for operations and
28 projects. In addition, to governs and reports financial performance for the lines of
29 business and co-chairs the Executive Project Committee which oversees execution
30 of all projects greater than \$20 million.

1 VP Business Finance section was created in 2008 to provide for separate
2 oversight of the Business Finance Group.⁸ VP Business Finance is forecasting
3 \$724,650 which is 62.74 percent increase from 2011 adjusted recorded costs of
4 \$445,293. DRA has reviewed PG&E's testimony and accompanying workpapers
5 and does not oppose PG&E's test year 2014 forecast.

6 **C. Controller**

7 The Controller Department is primarily responsible for financial accounting
8 and reporting, enterprise forecasting and monitoring, payment services to
9 employees and vendors, and tax planning and compliance. The Controller's
10 Department comprises the Vice President's office and five sections: Capital
11 Accounting, Corporate Accounting, Financial Forecasting and Analysis, Payment
12 Services, and Tax.

13 The Controller's Department forecasted costs for 2014 are \$30.946 million
14 which represents 68.6 percent of the total Finance Organization request. This
15 forecast is \$3.5 million or 12.6 percent higher than the 2011 recorded adjusted
16 amount of \$27.488 million. The increase is due primarily to wage escalation and a
17 slightly higher escalation factor for external audit fees. The adjustments to recorded
18 2007 through 2011 included costs related to reorganization and the San Bruno
19 disaster. PG&E adjusted out \$1,325,813 in 2010 and \$3,347,649 in 2011 related to
20 San Bruno.⁹

21

⁸ See response to DRA-PG&E-185-DFB, Question 7.

⁹ Ex. PG&E-9, workpapers p. WP 2-52.

2
3

Table 16-12
2007-2012 Recorded Data for Controller's Department
(In Thousands of Dollars)

Description	2007	2008	2009	2010	2011
Controller	\$913	\$5,664	\$5,612	\$3,911	\$5,553
Financial Forecasting & Analysis	\$2,376	\$2,475	\$2,627	\$1,535	\$1,372
Payroll Service	\$7,023	\$9,689	\$7,684	\$4,976	\$4,136
Corporate Accounting	\$11,738	\$6,930	\$7,334	\$9,218	\$8,568
Capital Accounting	\$2,641	\$2,506	\$2,623	\$2,709	\$2,795
Tax	\$8,665	\$7,872	\$6,132	\$5,219	\$5,061
Total	\$33,359	\$35,139	\$32,015	\$27,570	\$27,488

4 Source: 2007-2011 data from Ex. PG&E-9, workpapers p. WP 2--1.

5 **1. Vice President, Controller, and Utility Chief**
6 **Financial Officer (Controller)**

7 The Controller section's responsibilities include oversight of all parts of the
8 Controller's Department and management of the Utility CFO responsibilities.¹⁰
9 PG&E is forecasting \$5.831 million which is five percent higher than the 2011
10 recorded adjust amount of \$5.554 million. PG&E says it has adjusted out all costs
11 for Account 923 Outside Services – Corp.¹¹ PG&E says the adjustment was the
12 result of PG&E's reorganization in 2009 where 183 employees were moved from
13 PG&E Corporation to the PG&E- Utility since virtually all of their work was for utility
14 operations.¹² The recorded costs are now reflected in PG&E's Controller's adjusted
15 recorded costs for 2007 through 2011. PG&E's test year 2014 forecast includes
16 \$95,627 for Outside Services-Corporation. However, since PG&E provides no
17 testimony as to the services the \$95,627 would provide to benefit the ratepayers.
18 DRA recommends that \$95,627 be removed from test year 2014 forecast.

19 In 2008, PG&E moved the cost of the annual external financial statement
20 audit by Deloitte and Touché from Corporate Accounting to VP Controller. The 2007
21 audit fees of \$3,705,655 are still included in Corporate Accounting. Deloitte and
22 Touché Audit fees were \$3,617,840 (2008), \$3,877,675 (2009), \$4,039,370 (2010),

¹⁰ Ex. PG&E-9, page 2-10 and 2-11.

¹¹ Ex. PG&E-9, workpapers, p. WP 2-51.

¹² Ex. PG&E-9, workpapers, p. WP 2-58.

1 and \$4,026,550 (2011).¹³ The 2012 Deloitte and Touché audit fees were
2 \$4,164,437¹⁴ which is a three percent increase from 2011 recorded audits fees of
3 \$4,026,550. PG&E's Finance Organization does not forecast Outside Services
4 costs at the vendor level. The forecasted services costs for 2012-2014 are done at
5 the sub-department level and are based on historical trends for this type of cost and
6 known adjustments.¹⁵ It is unclear as to how much of the \$5,259,872 in expenses
7 forecasted for 2014 relates to estimated Deloitte and Touché audit fees. Using
8 PG&E's explanation for variance¹⁶ for Account 923 Outside Services-Utility, DRA
9 has calculated the Deloitte and Touché audit fees forecasted for 2014 to be
10 approximately \$4,529,550. DRA has calculated a three year average (2010-2012) of
11 \$4,022,887 and applied an annual three percent increase for 2013 and 2014 to
12 arrive at its 2014 forecast. This results in a forecast \$4,267,881 for Deloitte and
13 Touché 2014 audit fees. DRA recommends that \$261,669 be removed from Account
14 923 Outside Services – Utility.

15 **2. Financial Forecasting & Analysis**

16 The Financial Forecasting and Analysis section is responsible for planning
17 and forecasting PG&E's overall financial performance. In addition, this section
18 manages the Utility's capital structure, identifies the Utility's financial needs, and
19 provides a financing plan to the Treasury Department.¹⁷ PG&E is forecasting
20 \$2.205 million which is 60.7 percent higher than the 2011 recorded adjust amount of
21 \$1.372 million. . DRA has reviewed PG&E's testimony and accompanying
22 workpapers and does not oppose PG&E's test year 2014 forecast

¹³ See response to DRA-PG&E-058, Question 16a and 16b.

¹⁴ See response to DRA-PG&E-185, Question 11.

¹⁵ See response to DRA-PG&E-058, Question 16c.

¹⁶ Ex. PG&E-9, workpapers, p. WP 2-58 lines 3, 7, and 11.

¹⁷ Ex. PG&E-9, p. 2-15.

1 **3. Payroll Service**

2 The Payroll Service section provides timely and accurate payments to
3 employees, vendors, and other third parties and maintains compliance with all
4 employment tax reporting and payment requirements, administers employee
5 expense reimbursements, and maintains records associated with Company Credit
6 Cards and Purchasing Cards.¹⁸ PG&E is forecasting \$5.502 million which is 33
7 percent higher than the 2011 recorded adjusted amount of \$4.13 million. DRA has
8 reviewed PG&E’s testimony and accompanying workpapers and t does not oppose
9 PG&E’s test year 2014 forecast

10 **4. Corporate Accounting**

11 The Corporate Accounting section maintains the financial records for PG&E
12 and is responsible for the preparation of external financial reports and providing
13 research, analysis and advice on the accounting impacts of regulatory
14 developments, significant business transactions, and implementation of PG&E’s
15 accounting policies.¹⁹ PG&E is forecasting \$9.091 million which is six percent
16 higher than the 2011 recorded adjusted in the amount of \$8.568 million. DRA has
17 reviewed PG&E’s testimony and accompanying workpapers and does not oppose
18 PG&E’s test year 2014 forecast

19 **5. Capital Accounting**

20 The Capital Accounting section is responsible for providing timely and
21 efficient accounting of PG&E’s fixed assets, establishing the capitalization policies
22 for PG&E and providing capital recovery analysis for regulatory filings.²⁰ PG&E is
23 forecasting \$3.375 million which is 20.7 percent higher than the 2011 recorded
24 adjust amount of \$2.795 million. DRA has reviewed PG&E’s testimony and
25 accompanying workpapers does not oppose PG&E’s test year 2014 forecast.

¹⁸ PG&E-9, p. 2-16.

¹⁹ Ex. PG&E-9, p. 2-12.

²⁰ Ex. PG&E-9, p. 2-12.

1 **6. Taxes**

2 The Tax section is responsible for all federal and state income tax matters
 3 and all property and sales/use tax matters.²¹ PG&E is forecasting \$4.942 million
 4 which is 2.4 percent lower than the 2011 recorded adjusted amount of \$5.062
 5 million. One of DRA’s Auditors has made recommendations to reduce Outside
 6 Services recorded costs for 2007 through 2011.²² After comparing the adjusted
 7 2011 costs of \$364,112 to PG&E’s forecast of \$379,618, PG&E’s 2014 forecast is
 8 only five percent higher than the adjusted 2011 figure. This appears to be
 9 reasonable. DRA does not oppose PG&E’s test year 2014 forecast.

10 **D. Investor Relations**

11 The Investor Relations Department structures and facilitates PG&E’s
 12 communications with investors regarding financial performance and future
 13 expectations, including information about key milestones, regulatory decisions or
 14 proposed decisions, operational risks and other issues.²³ PG&E is forecasting
 15 \$1.024 million which is one percent higher than the 2011 recorded adjusted amount
 16 of \$1.015 million.

17 **Table 16-13**
 18 **2007-2012 Recorded Data for Investor Relations**
 19 **(In Thousands of Dollars)**

Description	2007	2008	2009	2010	2011	2012

 21 108, Question 4 Attachment 3.

²¹ Ex. PG&E-9, p. 2-19.

²² Ex. DRA-23, Results of Examination.

²³ Ex. PG&E-9, p. 2-21.

1 **1. 920 – Administrative & General Salaries**

2 Investor Relations is forecasting \$357,464 for A&G Salaries, which is a 65
3 percent increase from 2011 adjusted recorded costs of \$215,519.²⁴ DRA has
4 reviewed PG&E’s testimony and accompanying workpapers and does not oppose
5 PG&E’s test year 2014 forecast.

6 **2. 921 – Office Supplies Expenses**

7 Investor Relations is forecasting \$174,234 for Office Supplies, which is a 72.5
8 percent increase from 2011 adjusted recorded costs of \$100,983.²⁵ DRA has
9 reviewed PG&E’s testimony and accompanying workpapers and does not oppose
10 PG&E’s test year 2014 forecast.

11 **3. 923 – Outside Services - Utility**

12 Investor Relations is forecasting \$105,112 for Outside Services – Utility,
13 which is a 115 percent increase from 2011 adjusted recorded costs of \$48,817.²⁶
14 DRA has reviewed PG&E’s testimony and accompanying workpapers and takes
15 does not oppose PG&E’s test year 2014 forecast.

16 **4. 923 – Outside Services - Corporation**

17 Investor Relations is forecasting \$387,457 for Outside Services –
18 Corporation, which is a 42 percent decrease from 2011 adjusted recorded costs of
19 \$549,224.²⁷ DRA has reviewed PG&E’s testimony and accompanying workpapers
20 and does not oppose PG&E’s test year 2014 forecast.

1 **E. Treasury**

2 The Treasury Department is responsible for optimizing and structuring
 3 PG&E’s capital structure, executing all financing transactions, and ensuring sufficient
 4 liquidity to support the business, corporate, and strategic objectives.²⁸ PG&E is
 5 forecasting \$3.665 million which is 27.1 percent higher than the 2011 recorded
 6 adjusted amount of \$2.096 million. The Treasury Department is comprised of three
 7 sections: Banking and Money Management, Investments and Benefit Finance, and
 8 Strategic Analysis.

9 **Table 16-14**
 10 **2007-2012 Recorded Data for Treasury**
 11 **(In Thousands of Dollars)**

Description	2007	2008	2009	2010	2011
Banking and Money Mgmt.	\$982.2	\$787.6	\$1,585.9	\$1,906.7	\$1,930.7
Investment and Benefits	\$191.6	\$272.9	\$306.2	\$198.2	\$163.7
Strategic analysis	\$0	\$0	\$0	\$0	\$1.7
Total	\$1,173.8	\$1,060.5	\$1,892.1	\$2,104.9	\$2,096.1

12 Source: 2007-2011 data from Ex. PG&E-9, workpapers p. WP 2-72

13 **1. Banking and Money Management**

14 The Banking and Money Management section is responsible for executing
 15 financing transactions necessary for investments in infrastructure to serve PG&E’s
 16 customers.²⁹ PG&E is forecasting \$2.131 million which is 10.4 percent higher than
 17 the 2011 recorded adjusted amount of \$1.931 million. DRA has reviewed PG&E’s
 18 testimony and accompanying workpapers and takes does not oppose PG&E’s test
 19 year 2014 forecast.

20 **2. Investment and Benefits**

21 The Investment and Benefits section is responsible for ensuring appropriate
 22 funding and investment management of all external trust assets maintained by
 23 PG&E, including PG&E’s Retirement Plan, Post-Retirement Benefits Other Than

²⁸ Ex. PG&E-9, p. 2-23.

²⁹ Ex. PG&E-9, p. 2-24.

1 Pensions (PBOPS) medical and life insurance plans as well as Long-Term Disability
2 (LDT) plan.³⁰ Investment and Benefits is forecasting \$198,546 which is a 21.3
3 percent increase from 2011 adjusted recorded costs of \$163,687. DRA has
4 reviewed PG&E's testimony and accompanying workpapers and does not oppose
5 PG&E's test year 2014 forecast.

6 **3. Strategic Analysis**

7 The Strategic Analysis section was originated as a financial analysis group
8 embedded with in Corporate Strategic and Development (CSD). CSD Organization
9 was disbanded in 2011.³¹ Strategic Analysis is forecasting \$289,615 which is an
10 increase from 2011 adjusted recorded costs of \$1,653. DRA has reviewed PG&E's
11 testimony and accompanying workpapers and does not oppose PG&E's test year
12 2014 forecast.

13 **F. Bank Fees and Remaining Vacation**

14 **1. Bank Fees**

15 Bank Fees represent the fees charged for depository, disbursement, custody,
16 and trustee-related services.³² PG&E is forecasting banks fees of \$5.754 million
17 which is a 20 percent increase from 2011 adjusted recorded costs of \$4.782 million.
18 DRA has reviewed PG&E's testimony and accompanying workpapers and does not
19 oppose PG&E's test year 2014 forecast.

20 **2. Remaining Vacation**

21 Remaining vacation represents the vacation liability related to employee
22 vacation benefits for the entire company.³³ PG&E is forecasting remaining vacation
23 \$5.098 million which is 49 percent decrease from 2011 adjusted recorded costs of

³⁰ Ex. PG&E-9, p. 2-24.

1 \$10.064 million. DRA has reviewed PG&E's testimony and accompanying
2 workpapers and does not oppose PG&E's test year 2014 forecast.

3 **G. Finance Organization – Information Technology Projects**

4 The Finance Organization plans five Information Technology (IT) projects to
5 which it says are to ensure compliance with new accounting regulations, maintain
6 core financial systems, and improve the usability and enhance the capability of
7 PG&E's core financial systems. PG&E is forecasting \$2.6 million for expense in
8 2014, and \$7.4 million for capital expenditures in 2012, \$3.4 million in 2013, \$8.2
9 million in 2014, \$7.9 million in 2015, and \$6.8 million in 2016. The IT expenses
10 costs are forecasted in MWC JV (Maintain Application and Infrastructure) and IT
11 capital costs are forecasted in MWCV 2F (Build Applications and Infrastructure).

12 **1. IT Expenses**

13 The Finance Organization is forecasting IT expenses of \$2.56 million in 2014
14 which is 66.6 percent higher than the 2011 recorded adjusted amount of \$1.537
15 million.³⁴ The Finance Organization's 2014 IT expenses are for three projects:
16 Planning Simplification and Improvement (\$85,000), Data Integration and Analytics
17 (\$300,000), and Financial Application and System Updates (\$2.175 million). PG&E
18 developed the cost forecast for each IT project using its application development
19 concept estimating tool. DRA addresses this estimating tool in Exhibit DRA-18
20 Shared Services & Information Technology Costs. Based on the recommendations
21 contained in that exhibit, DRA recommends that \$358,400 be removed from test
22 year 2014 forecast.

23 **2. IT Capital Expenditures**

24 The Finance Organization is forecasting IT capital expenditures of \$8.226
25 million in 2014 which is 620.9 percent higher than the 2011 recorded adjusted
26 amount of \$1.141 million.³⁵ The Finance Organization's 2014 IT capital

³⁴ Ex. PG&E-9, p. 2-31, Table 2-3.

³⁵ Ex. PG&E-9, p. 2-31, Table 2-4.

1 expenditures are for five projects: Accounting Convergence (\$1.951 million),
2 Planning Simplification and Improvement (\$1.45 million), Automated Close Process
3 (\$0),³⁶ Data Integration and Analytics (\$3.45 million) and Financial Application and
4 System Updates (\$1.75 million). PG&E developed the cost forecast for each IT
5 project using its application development concept estimating tool. DRA addresses
6 this estimating tool in Exhibit DRA-18 Shared Services & Information Technology
7 Costs.

8 PG&E is forecasting \$1.951 million for IT Project Accounting Convergence
9 which is to implement changes to the PG&E's accounting system to comply with
10 pending Security Exchange Commission (SEC) requirements to adopt the new
11 accounting and reporting standards. This project is a continuation of the
12 International Financial Reporting Standards (IFRS) project begun under the previous
13 general rate case period.³⁷ The SEC has not yet adopted the new international
14 accounting and reporting standards.³⁸ The IFRS have not been adopted yet in the
15 United States for use over General Accepting Accounting Principles.³⁹ The SEC
16 initially proposed mandatory reporting under IFRS in 2014, however, the SEC has
17 since postponed implementation of IFRS.⁴⁰ This project was funded in PG&E's last
18 general rate case so there is no need to grant additional project funding in this GRC
19 for this project. DRA recommends that \$1.951 million be removed from Finance
20 Organization's capital IT projects for the test year 2014. For the remaining IT capital
21 projects, DRA recommends that an additional \$878,500 be removed from the

³⁶ PG&E is forecasting \$1.0 million in 2013 and \$3.5 million in 2015.

³⁷ Ex. PG&E-9, workpapers, p. WP 2-101.

1 Finance Organization's test year 2014 forecast to reflect DRA's recommendation
2 regarding PG&E's IT estimating tool.⁴¹

3 **V. DISCUSSION / ANALYSIS OF RISK & AUDIT DEPARTMENT COSTS**
4 **and INSURANCE EXPENSES**

5 This section discusses PG&E's Risk and Audit Department costs. Risk and
6 Audit organization is responsible for overseeing PG&E's risk management, internal
7 audit, compliance, ethics, and corporate security. Specifically, Risk and Audit
8 Department assists management in improving processes and controls; reducing the
9 risk of non-compliance with legal, regulatory, and financial requirements to
10 acceptable levels; helping PG&E manage the risk of loss due to fraud, theft, and
11 major emergencies, and monitoring and mitigating market, liquidity, and credit risk.

12 The Risk and Audit Department consists of the five sub-departments:

- 13 · Vice President's Immediate Office (CRO IO)
- 14 · Internal Audit
- 15 · Market and Credit Risk Management
- 16 · Corporate Security
- 17 · Enterprise Risk Management and Insurance Department

18 The Risk and Audit department is forecasting department costs of \$19.180
19 million which is a 21 percent increase from the 2011 adjusted recorded costs of
20 \$15.9 million. The increase is due to increased staffing of 13.3 Full-Time
21 Equivalent (FTEs) and represents \$1.2 million in wage escalation.

22 PG&E is forecasting Property and Liability Insurance of \$105.241 million,
23 which is 105 percent higher than the 2011 recorded adjusted amount of \$51.324
24 million. According to PG&E, the increase is due to a variety of factors including
25 continued concerns about wildfires risk in California, the large nuclear property claim
26 at Crystal River, concerns regarding the age of infrastructures following the San

⁴¹ Ex. DRA-18, Shared Services & Information Technology Costs.

1 Bruno accident, and the major catastrophic losses that have occurred worldwide,
 2 such as the earthquake and tsunami in Japan, floods in Thailand, the British
 3 Petroleum oil spill, earthquake in New Zealand and severe weather outbreaks in the
 4 United States.⁴²

5 The following table summarizes PG&E's request and DRA's recommendation
 6 regarding test year expenses for the Risk & Audit Department and Insurance
 7 Expenses.

8 **Table 16-15**
 9 **Administrative & General Expenses for TY2014**
 10 **Risk & Audit Department Costs and Insurance Expenses**
 11 **(In Thousands of Dollars)**

12

13 The Risk and Audit Department says that it is planning eight IT projects to
 14 support its organization's objectives. PG&E forecasts \$4.045 million for IT expenses
 15 in 2014, and \$2.550 million for IT capital expenditures in 2012, \$700,000 for capital
 16 in 2013, \$33.770 million⁴³ in 2014, \$8.070 million in 2015, and \$6.220 million in

⁴² Ex. PG&E-9, p. 3-11.

⁴³ These costs include the capital forecast for the IT portion of the alternate EOC.

1 2016. PG&E developed the costs forecast for each IT project using PG&E's
 2 application development concept estimating tool.⁴⁴

	\$ 615,883	\$ 758,137	\$ 526,331	\$ 546,344	\$ 759,069	\$ 1,159,057

4

5 Source: 2007-2011 data from Ex. PG&E-9, workpapers p. WP 3-20. 2012 data from DRA-PG&E-
6 108, Question 4 Attachment 4.

7

1. 920 – Administrative & General Salaries

8

CRO is forecasting \$392.234 million which is a 7.2 percent decrease from
9 2011 adjusted recorded of \$421.826 million.⁴⁶ PG&E’s adjustments to Account 920
10 for 2007 through 2011 relate to the reorganization from PG&E Corporation to PG&E
11 the Utility. In addition, \$8,508 was adjusted out of 2010 costs related to San Bruno.
12 CRO does not anticipate any change in staffing for the test year 2014. DRA has
13 reviewed PG&E’s testimony and accompanying workpapers and does not oppose
14 PG&E’s test year 2014 forecast.

15

2. 921 – Office Supplies Expenses

16

CRO is forecasting \$7.312 million which is an 89 percent decrease from 2011
17 adjusted recorded costs of \$69.201 million.⁴⁷ PG&E’s adjustments to Account 921
18 for 2007 through 2011 relate to the reorganization from PG&E Corporation to PG&E
19 the Utility. In addition, \$4,935 was adjusted out of 2010 and \$547 was adjusted in
20 2011 for costs related to San Bruno. DRA has reviewed PG&E’s testimony and
21 accompanying workpapers and does not oppose PG&E’s test year 2014 forecast.

⁴⁶ Ex. PG&E-9 workpapers, p. WP 3-20.

⁴⁷ Ibid.

1 **3. 923 – Outside Services - Utility**

2 CRO is forecasting \$353,013 which is a 32 percent increase from 2011
3 adjusted recorded costs of \$268,042.⁴⁸ PG&E’s adjustments to Account 923 - Utility
4 for 2007 through 2011 relate to the reorganization from PG&E Corporation to PG&E
5 the Utility. In addition, \$74,652 and \$598,697 was adjusted out of 2010 and 2011,
6 respectively, for costs related to San Bruno. DRA has reviewed PG&E’s testimony
7 and accompanying workpapers and does not oppose PG&E’s test year 2014
8 forecast.

9 **4. 923 – Outside Services - Corporation**

10 CRO is forecasting \$226,928 which is a major increase from 2011 adjusted
11 recorded costs of zero.⁴⁹ PG&E’s adjustments to Account 923 - Corp for 2007
12 through 2011 relate to the reorganization from PG&E Corporation to PG&E the
13 Utility. Actual recorded costs for the years 2007 through 2011 are embedded in
14 PG&E’s adjusted recorded costs for Accounts 920, 921, and 923-Utility. PG&E’s
15 testimony does not provide any compelling supporting documentation as to why it is
16 forecasting costs for Account 923-Corp for the test year 2014. Therefore, DRA
17 recommends that \$226,928 be removed from test year 2014 forecast.

18 **B. Market and Credit Risk Management Department**

19 The Market and Credit Risk Management Department (M&CRM) provides
20 services PG&E describes as “critical” to PG&E’s operations and that PG&E says
21 enable PG&E to “...measure, monitor, and manage risks arising from the multi-billion
22 gas and electric procurement function.”⁵⁰ PG&E anticipates M&CRM will need to
23 increase staffing by two employees. PG&E is forecasting \$5.379 million which is
24 23.0 percent higher than the 2011 recorded adjusted amount of \$4.373 million.
25

1 **C. Internal Audit**

2 Internal Audit Department is comprised of three sub-departments: Financial
3 Controls and Compliance, Internal Auditing, and Compliance and Ethics. The
4 department currently has 28 employees and does not anticipate any change to
5 staffing in 2014.⁵⁴ PG&E is forecasting \$6.356 million which is seven percent higher
6 than the 2011 recorded adjusted amount of \$5.867 million.

7 **1. Compliance and Ethics**

8 The Compliance and Ethics Department is responsible for developing and
9 providing programs to enable PG&E to operate ethically and in compliance with legal
10 and regulatory requirements.⁵⁵ PG&E is forecasting \$1.787 million which is 0.7
11 percent higher than the 2011 recorded adjusted amount of \$1.477 million. DRA has
12 reviewed PG&E’s testimony and accompanying workpapers and does not oppose
13 PG&E’s test year 2014 forecast.

14 **2. Internal Auditing Department**

15 Internal Auditing is responsible for all internal audit services and performs
16 both financial and operations audits.⁵⁶ Internal Auditing has 28 employees and
17 does not anticipate any change to staffing in 2014. PG&E is forecasting \$3.945
18 million which is 3.5 percent higher than the 2011 recorded adjusted amount of
19 \$3.568 million. DRA has reviewed PG&E’s testimony and accompanying workpapers
20 and does not oppose PG&E’s test year 2014 forecast.

21 **3. Financial Controls and Compliance**

22 The Financial Controls and Compliance Department is responsible for
23 monitoring and reporting on PG&E Corporation and PG&E the Utility’s effectiveness

⁵⁴ Ex. PG&E-9, p. 3-4.

⁵⁶ Ex. PG&E-9, p. 3-4.

1 related to Sections 302 and 404 of the Sarbanes-Oxley (SOX) Act.⁵⁷ Financial
 2 Controls and Compliance Department says it will increase staffing in 2014 with two
 3 additional employees. PG&E is forecasting \$923,930 which is 42.3 percent higher
 4 than the 2011 recorded adjusted amount of \$649,336. DRA has reviewed PG&E's
 5 testimony and accompanying workpapers and does not oppose PG&E's test year
 6 2014 forecast.

7 **D. Enterprise Risk Management and Insurance Department**
 8 **(Administrative Costs)**

9 The Enterprise Risk Management (ERM) and Insurance Department assists
 10 the Lines of Business (LOB) in identifying, Evaluating, and mitigating the operational
 11 and enterprise risks and to provide oversight by monitoring the status of PG&E's risk
 12 management activities. The ERM and Insurance Department minimizes the adverse
 13 financial impact of catastrophic property and casualty losses by using insurance to
 14 transfer residual financial risks.⁵⁸ The ERM and Insurance Department's staffing
 15 will increase from nine employees in 2011 to 12 employees in 2014. PG&E is
 16 forecasting \$1.926 million which is 47 percent higher than the 2011 recorded
 17 adjusted amount of \$1.311 million.

18 **Table 16-20**
 19 **2007-2012 Recorded Data for M&CRM**
 20 **(In Whole of Dollars)**

Description	2007	2008	2009	2010	2011	2012
920 Admin & General	\$ 960,032	\$ 933,741	\$ 885,014	\$ 914,036	\$ 1,018,887	\$ 1,330,477
921 Office Supplies	\$ 162,617	\$ 67,441	\$ 74,480	\$ 68,136	\$ 68,749	\$ 179,165
923 Outside Svc Utility	\$ 143,167	\$ 156,285	\$ 391,482	\$ 83,496	\$ 218,736	\$ 129,039
923 Outside Svc Corp	\$ -	\$ -	\$ -	\$ -	\$ 4,158	\$ 5,201
	\$ 1,265,816	\$ 1,157,467	\$ 1,350,976	\$ 1,065,668	\$ 1,310,530	\$ 1,643,882

21 ⁵⁷ Ex. PG&E-9, p. 3-4 and 3-5.

⁵⁸ Ex. PG&E-9, p. 3-8.

1 **1. 920 – Administrative & General Salaries**

2 ERM is forecasting \$1,632,029 which is a 60.18 increase from 2011 adjusted
3 recorded costs of \$1,018,887.⁵⁹ DRA has reviewed PG&E’s testimony and
4 accompanying workpapers and does not oppose PG&E’s test year 2014 forecast.

5 **2. 921 – Office Supplies Expenses**

6 ERM is forecasting \$344,727 which is a 0.44 percent increase from 2011
7 adjusted recorded costs of \$343,233.⁶⁰ DRA has reviewed PG&E’s testimony and
8 accompanying workpapers and does not oppose PG&E’s test year 2014 forecast.

9 **3. 923 – Outside Services - Utility**

10 ERM is forecasting \$145,705 which is a 31.23 percent decrease from 2011
11 adjusted recorded costs of \$211,886.⁶¹ DRA has reviewed PG&E’s testimony and
12 accompanying workpapers and does not oppose PG&E’s test year 2014 forecast.

13 **4. Insurance (Administrative Costs)**

14 The Insurance Department is responsible for administrating PG&E’s
15 insurance coverage. PG&E says it is expanding its ERM team by adding three
16 additional staff in test year 2014. PG&E says this expanded role is to manage risk at
17 PG&E and manage the new Operational Risk Management Program (ORMP).
18 PG&E’s workpapers indicated that this project is not mandated.⁶² PG&E’s
19 ratepayers should not be asked to fund non-mandated programs. Since PG&E has
20 not provided sufficient justification for this proposed increase in labor costs for this
21 project, DRA recommends that \$573,000 in labor cost be removed from the test year
22 2014 forecast.

⁵⁹ Ex. PG&E-9, workpapers p. WP 3-55.

⁶⁰ Ex. PG&E-9, workpapers p. WP 3-31.

⁶¹ Ex. PG&E-9, workpapers p. WP 3-31.

⁶² Ex. PG&E-9, workpapers p. WP 3-95.

1 **E. Corporate Security**

2 PG&E says that its Corporate Security Department (CSD) is responsible for
3 providing professional and costs-effective security, Business Continuity and
4 Emergency Management (BC&EM) planning, and life safety support to protect
5 PG&E’s critical facilities, assets, customers, the general public, and employees.⁶³
6 PG&E proposes to increase CSD staffing from 27 employees in 2011 to 33.3 FTE
7 employees in 2014. PG&E is forecasting \$4.538 million for TY 2014 which is 30.3
8 percent higher than the 2011 recorded adjusted amount of \$3.483 million.

9 **1. 920 – Administrative & General Salaries**

10 CSD is forecasting \$2,903,377 which is a 45.16 percent increase from 2011
11 adjusted recorded costs of \$2,183,726.⁶⁴ CSD plans to increase staffing by 6.3
12 FTEs from 2011 to 2014, comprising: 2.3 in 2012, 1 in 2013, and 3 in 2014. DRA
13 has reviewed PG&E’s testimony and accompanying workpapers and does not
14 oppose this portion of PG&E’s test year 2014 labor forecast.

15 CSD also plans to add one director in 2013 with security technology expertise
16 to support the use of technology and data analytics in security operations.⁶⁵
17 According to PG&E, “This new director will replace the current senior director of
18 Corporate Security who will be retiring. PG&E is plans to hire the director in 2013 in
19 advance of that retirement for succession planning purposes.”⁶⁶ The labor costs
20 associated with the current senior director of Corporate Security is embedded in
21 2011 adjusted recorded costs. CSD is forecasting an increase in 2013 labor costs of
22 \$264,000 which includes the anticipated new director. Therefore, the labor forecast
23 for test year 2014 includes both the retiring director and his/her replacement.
24 Ratepayers should not be asked to fund labor costs for the retiring director and

⁶³ Ex. PG&E-9, p. 3-7.

⁶⁴ Ex. PG&E-9, workpapers p. WP 3-67.

⁶⁵ Ex. PG&E-9, p. 3-8.

⁶⁶ See response to DRA-PG&E-180-DFB, Question 4.

1 his/her replacement in the test year 2014. DRA recommends that \$123,000⁶⁷ be
2 removed from test year 2014 labor costs.

3 **2. 921 – Office Supplies Expenses**

4 CSD is forecasting \$383,245 which is a 21.74 percent decrease from 2011
5 adjusted recorded costs of \$489,714.⁶⁸ DRA has reviewed PG&E’s testimony and
6 accompanying workpapers and does not oppose PG&E’s test year 2014 forecast.

7 **3. 923 – Outside Services - Utility**

8 CSD is forecasting \$985,262 which is a 21.69 percent increase form 2011
9 adjusted recorded costs of \$809,651.⁶⁹ DRA has reviewed PG&E’s testimony and
10 accompanying workpapers and does not oppose PG&E’s test year 2014 forecast.

11 **F. Capital Project – Alternate Emergency Operations Center**

12 PG&E has identified a potential seismic risk that could impact emergency
13 operations. In particular its primary facilities at 77 Beale Street in San Francisco and
14 its alternate Company headquarters and Emergency Operations Center (EOC) in the
15 San Ramon Valley Conference Center are both located such that certain earthquake
16 scenarios could ender both facilities partially or totally unusable for a period of time.

17 PG&E says that to mitigate this risk, it plans to establish an alternate EOC at
18 a location outside the greater Bay Area.⁷⁰ The alternate EOC will provide
19 immediate occupancy to critical business activities in the event facilities in the Bay
20 Area are impacted.⁷¹ For this project, PG&E forecasts \$19.9 million in capital for
21 this project in 2014, comprising \$13 million for the building portion for the project and
22 \$6.9 million for the IT portion of the project. The capital costs are forecasted in

⁶⁷ Ex. PG&E-9, workpapers p. WP 3-75 line 5.

⁶⁸ Ex. PG&E-9, workpapers p. WP 3-67.

⁶⁹ Ibid.

⁷⁰ PG&E’s plan is to have a location which outside the nine Bay Area counties.

⁷¹ Ex. PG&E-9, p. 3-10.

1 MWC 23 (Implement Real Estate Strategy) and MWC 2F (Build IT Applications and
2 Infrastructure) that includes the costs for the new buildings and the purchase and
3 installation of furniture, office equipment, and IT Infrastructure.

4 **1. ACHQ Expense**

5 As part of the EOC project, PG&E is forecasting \$250,000 in expense to fund
6 a feasibility study⁷² for an alternate PG&E headquarters (ACHQ). The consultant is
7 supposed to identify the essential personnel to be located at an alternate
8 headquarters facility in the event PG&E's General Office buildings are not available
9 for extended period. Once the study is complete in 2014, PG&E will be able to
10 determine the size of the alternate headquarters and develop a proposal to establish
11 the facility. PG&E is not forecasting construction costs for the ACHQ in this general
12 rate case.⁷³ This feasibility study is a one-time expense, and therefore, should be
13 normalized for the test year. DRA recommends that \$166,667 (two-thirds of the
14 \$250,000 expense) be removed from Account 923 Outside Services-Utility test year
15 2014 forecast.

16 **2. EOC Capital Expenditure**

17 PG&E is forecasting \$13 million for the building portion of a new Alternate
18 EOC outside of the nine bay area counties and \$6.9 million in IT costs for the test
19 year 2014. No specific site has been identified for this Alternate EOC and PG&E
20 has not purchased land for it.⁷⁴ The last major earthquake in the San Francisco Bay
21 Area was the Loma Prieta earthquake in 1989.

22 PG&E stated that the reason it has not considered an Alternate EOC or
23 alternate Company Headquarters before now is:

24 "Since the 1989 Loma Prieta earthquake and the 1992 Northridge
25 earthquake in Southern California, PG&E's focused on (1)
26 retrofitting and reinforcing existing facilities and (2) establishing

⁷² Ex. PG&E-9, p. 3-10.

⁷³ See response to DRA-PG&E-177-DFB, Q. 4.

⁷⁴ See response to DRA-PG&E-010-DFB, Q. 17.

1 more formalized control centers and command systems to manage
2 information and control assets and resources after a catastrophic
3 event. Based on lessons learned from these two significant
4 earthquakes, PG&E elected to use existing facilities for the
5 emergency operations center (EOC). PG&E recognized that the
6 primary EOC (in the General Office in San Francisco) and the
7 alternate facilities (at the San Ramon training facility) were within
8 30 miles of one another. This was not considered to be a
9 significant risk at the time because both facilities were scheduled
10 for seismic reinforcement. In addition, the distance between the
11 two locations was consistent with common industry practices at the
12 time, and siting decisions focused on the potential impact of an
13 earthquake on the San Andreas Fault.

14 An examination of the seismic risk as part of the Enterprise Risk
15 Management Program starting in 2006, and additional
16 examinations by PG&E's Geosciences Department of the impact of
17 all faults in the San Francisco Bay Area, led PG&E to recognize that
18 the structural integrity of facilities was only one risk component to
19 consider. Additional risks lay with surrounding infrastructure
20 (transportation infrastructure to access facilities, as well as water,
21 sewage and other infrastructure needed to operate the facilities).
22 These analyses prompted further consideration of the location of
23 the alternate facilities.

24 Key event anniversaries often trigger new research or restatements
25 of potential impacts from catastrophic events. The Hayward Fault
26 last experienced a major earthquake in 1868 and geologic history
27 indicates that major quakes have occurred on the fault about every
28 140 years. In 2008, many scientific assessments of potential
29 damage were published around the 140th anniversary of the
30 magnitude 7 earthquake. Information from these reports and
31 American Geophysical Union technical sessions contributed to
32 PG&E's current understanding of the potential impact of a major
33 rupture on the Hayward faults."⁷⁵

34 Now PG&E is seeking ratepayer funding for a new Alternate EOC but does
35 not have a specific site for it.⁷⁶ The Commission should not make ratepayers fund
36 this capital project at this time

⁷⁵ See response to DRA-PG&E-177, Question 6.

⁷⁶ See response to DRA-PG&E-010, Question 17 and DRA-PG&E-177, Question 7.

1 PG&E says that, “[i]n conjunction with [the Alternate EOC] project, PG&E also
2 forecast \$0.25 million in expenses to fund a feasibility study for an alternate
3 Company Headquarters.”⁷⁷ PG&E says it is not requesting funding for its Alternate
4 Company Headquarters until after it has completed a feasibility study. Since neither
5 the alternate EOC nor the Alternate Company Headquarters has a specific location,
6 it is not reasonable to ask ratepayers to fund \$19.9 million in construction costs at
7 this time. DRA recommends that the Commission reject PG&E’s request for \$19.9
8 million in capital costs in test year 2014.

9 **G. Property and Liability Insurance**

10 PG&E maintains property insurance coverage to limit large, unforeseeable
11 losses of its assets due to catastrophes such as fires, earthquakes and floods.
12 PG&E also maintains liability insurance to protect against third-party claims
13 alleging bodily injury, property damage, or wrongful acts by PG&E and its Boards of
14 Directors and Officers. PG&E is forecasting \$105.186 million in expenses for
15 property and liability insurance in 2014, which is 105 percent higher than the 2011
16 recorded adjusted amount of \$51.323 million. PG&E asserts that the increase is due
17 to a variety of factors, “...including continued concerns about wildfire risk in
18 California, the large nuclear property claim at Crystal River, concerns regarding the
19 age of infrastructure following the San Bruno accident, and the major catastrophic
20 losses that have occurred worldwide, such as the earthquake and tsunami in Japan,
21 floods in Thailand, the British Petroleum oil spill, earthquake in New Zealand and
22 severe weather outbreaks in the U.S.”⁷⁸ The following table shows the adjusted
23 recorded costs:
24

⁷⁷ Ex. PG&E-9, p. 3-10.

⁷⁸ Ex. PG&E-9, p. 3-11.

1 **Table 16-21**
2 **2007-2012 Recorded Property and Liability Insurance Expense**
3 **(In Thousands of Dollars)**

Description	2007	2008	2009	2010	2011	2012
Non-Nuclear	\$ 13,903	\$ 13,721	\$ 13,744	\$ 14,527	\$ 15,235	\$ 16,758

	\$ 50,139	\$ 105,242	\$ 55,103	109.90%

12
13
14 **1. Property Insurance**

15 PG&E's maintains non-nuclear property insurance and nuclear property
16 insurance. PG&E's Non-Nuclear Property Insurance provides coverage for the costs
17 of repair and/or replacement of damage property from perils as storms, earthquakes

1 and fires at PG&E's non-nuclear facilities.⁷⁹ PG&E is forecasting \$21.1 million in
2 expenses for 2014, which is 41.3 percent higher than the 2011 recorded adjusted
3 amount of \$15.235 million. According to PG&E, this increase is driven by two
4 factors: 1) overall price increases in the marketplace due to the large number of
5 significant property claims including the major flood and earthquake damage that
6 occurred globally in 2011; and, 2) PG&E's continuation to upgrade and replace its
7 asset base.

8 PG&E forecasted a 17 percent (\$17.852 million) increase in property
9 insurance for 2012, a 12 percent (\$19.950 million) increase in 2013, and an eight
10 percent (\$21.521 million) increase in 2014. PG&E's 2012 recorded non-nuclear
11 insurance was \$16.757 million.⁸⁰ This is a ten percent increase over the 2011
12 recorded cost of \$15.235 million. The recorded 2012 non-nuclear property
13 insurance is seven percent lower than PG&E's 2012 forecast of \$17.852 million and
14 28 percent lower than test year 2014 forecast of \$21.521 million. DRA has reviewed
15 PG&E's forecast and responses to data requests and concludes that it is reasonable
16 to use the recorded 2012 property insurance as the basis for forecasting the test
17 year 2014. Therefore, DRA forecasts a six percent increase (to \$17.762 million) in
18 2013, and four percent increase (to \$18.473 million) in test year 2014. DRA
19 forecasts \$18.473 million in test year 2014 expenses for non-nuclear property
20 insurance. Therefore, DRA recommends that PG&E's request be reduced by
21 \$3.048 million.

22 PG&E's Nuclear Property Insurance provides coverage for the cost of repair
23 and/or replacement of damage property from perils such as storms, earthquakes
24 and fires at PG&E's nuclear facilities, decontamination and stabilization following a
25 catastrophic nuclear accident, and reimbursement for business interruptions at an
26 undamaged facility in the even a plant is shut down.⁸¹ PG&E purchases nuclear

⁷⁹ Ex. PG&E-9, p. 3-12.

⁸⁰ See response to DRA-PG&E-110-DFB, Question 1.

⁸¹ Ex. PG&E-9, p. 3-13.

1 property insurance from the industry mutual Nuclear Electric Insurance Limited
2 (NEIL).⁸² Prior to 2010 and then again in 2011, NEIL paid distributions to its
3 members based on an annual assessment of NEIL's financial condition and ability to
4 pay losses. These distributions actually exceeded the premiums paid by PG&E,
5 resulting in a negative or low cost of nuclear insurance. NEIL is forecasting that it
6 will pay no distributions for 2012-2014.⁸³

7 PG&E is forecasting \$5.2 million which is 500 percent higher than the 2011
8 recorded adjusted amount of \$0.865 million. The increase is based on a small
9 increase in PG&E's nuclear asset values and NEIL's forecast that it will make no
10 nuclear distributions from 2012-2014. DRA does not oppose PG&E's nuclear
11 insurance forecast for test year 2014 of \$5.2 million.

12 **2. Excess Liability Insurance**

13 Excess Liability Insurance provides coverage for claims from third parties
14 alleging personal injury or property damage.⁸⁴ PG&E is forecasting \$71.96 million in
15 expenses for 2014, which is a 143 percent increase from the 2011 adjusted
16 recorded costs of \$29.618 million. According to PG&E, the increase is based on
17 insurance industry concerns about the age of infrastructure in the U.S., in general,
18 and in California, in particular.⁸⁵ Significant losses for the insurance industry affect
19 excess liability premiums. This includes costs of the San Bruno accident as well as
20 other losses worldwide.

21 PG&E's excess liability insurance increased 53 percent in 2010 and again in
22 2011. PG&E forecasted a 45.5 percent increase in 2012 (\$46.593 million), a 46
23 percent increase in 2013 (\$67.932 million), and a 10 percent increase in 2014
24 (\$74.451 million). PG&E's 2012 recorded excess liability insurance was \$33.579

⁸² Ex. PG&E-9, p. 3-11.

⁸³ Ex. PG&E-9, p. 3-13.

⁸⁴ Ex. PG&E-9, p. 3-14.

⁸⁵ Ex. PG&E-9, p. 3-14.

1 million.⁸⁶ This is an 18.8 percent increase over the 2011 recorded cost of \$32.003
2 million. The recorded 2012 excess liability insurance is 28 percent lower than
3 PG&E's 2012 forecast of \$46.593 million and 122 percent lower than test year 2014
4 forecast of \$74.451 million.

5 PG&E's excess liability insurance increased significantly in 2010 and 2011 at
6 levels well above prior years. The increase in 2012 moderated significantly
7 compared to the two prior years. DRA concludes that the last recorded expenses
8 from 2012, equal to \$33.579 million, should be the basis for forecasting the test year
9 2014 expense. With that, DRA forecasts a four percent increase in 2013, to \$34.922
10 million, and a four percent increase in test year 2014, to \$36.319 million. The four
11 percent increase is slightly higher than the wage escalation rate that PG&E uses in
12 this GRC. DRA removed \$11.1 million on the DRA Auditor's recommendation.⁸⁷
13 DRA forecasts test year 2014 excess liability insurance \$25.219 million. DRA
14 removed \$11.1 million on the DRA Auditor's recommendation.⁸⁸ Therefore, DRA
15 recommends that PG&E's test year 2014 excess liability insurance expenses be
16 reduced by \$49.232 million.

17 **3. Directors and Officers Liability**

18 The Directors and Officers (D&O) liability program provides coverage for
19 claims alleging wrongful acts such as breach of fiduciary duty by PG&E's directors or
20 officers. PG&E is forecasting \$3.387 million in D&O expenses for 2014, which is
21 31.8 percent higher than the 2011 recorded adjusted amount of \$2.569 million.

22 PG&E's recorded D&O insurance expense for the period 2007 through 2011
23 was \$4.325 million, \$3.335 million, \$3.252 million, \$2.911 million, and \$2.569 million.
24 The D&O insurance cost has decreased approximately 41 percent during that five
25 year time frame. The recorded D&O Insurance expense is showing a downward
26 trend while PG&E is forecasting \$3.387 million for test year 2014, a 31.84 percent

⁸⁶ See response to DRA-PG&E-110-DFB, Q. 1 Supp02.

⁸⁷ See Ex. DRA-23.

⁸⁸ See Ex. DRA-23.

1 (or \$818,000) increase over recorded 2011 expense. The 2012 last recorded costs
2 were \$2.511 million⁸⁹ which is only a two percent decrease over the 2011 recorded
3 costs of \$2.569 million. With a down ward trend, it is not reasonable to allow a 32
4 percent increase in D&O insurance. Therefore, DRA recommends that the 2012
5 recorded be used as the basis for forecasting PG&E's 2014 D&O insurance
6 expenses.

7 The next issue to address is PG&E's request that the Commission authorize it
8 to include 100 percent of its D&O insurance costs in rates. In its 1996 decision
9 resolving the GRC application of Southern California Edison Company (SCE),⁹⁰ the
10 Commission found it appropriate to allocate 50% of the Directors Officers insurance
11 costs to shareholders to reflect the benefits they received from this insurance. In its
12 decision resolving PG&E's TY 1999 GRC, the Commission allowed PG&E to recover
13 half of its Directors and Officers insurance costs from ratepayers, while the other half
14 was to be recovered from shareholders.⁹¹ The Commission's reasoning was that
15 the Directors and Officers insurance benefited both the utility's shareholders and
16 ratepayers. In its 2004 decision resolving the GRC of Southwest Gas Corporation,
17 the Commission stated:

18 However, D&O insurance protects directors and officers from
19 activities that benefit both shareholders and customers. Therefore,
20 we will adopt an amount for D&O insurance that allocates the costs
21 of D&O insurance equally between shareholders and customers.⁹²
22

⁸⁹ See response to DRA-PG&E-110-DFB, Q1Supp02.

⁹⁰ Re Southern California Edison Company (1996) 64 CPUC2nd 241, 319; d.96-01-011.

⁹¹ Application of Pacific Gas and Electric Company (TY 1999 GRC) (2000) D. 00-02-046, mimeo p. 305.

⁹² D. 04-03-034, mimeo, pp. 32 and 33.

1 The Proposed Decision from San Diego Gas & Electric Company/Southern
2 California Gas Company's 2012 GRC states:

3 "On the issue of whether the directors and officers liability should
4 be borne mostly by SDG&E and SoCalGas, or if 50% of the costs
5 should be borne by Sempra's shareholders, we agree with DRA
6 and FEA. Although this type of insurance is used to attract and
7 retain executives, the Applicants acknowledge that such insurance
8 protects Sempra's Board members and officers from catastrophic
9 losses, which is a benefit that accrues to shareholders, rather than
10 ratepayers. For that reason, of the \$3.515 million allocated to the
11 two utilities, SDG&E and SoCalGas should each be allocated 50%
12 of this amount, i.e., \$879,000 each."⁹³

13
14 The Commission's policy regarding D&O insurance is for ratepayers and
15 shareholders to equally share in the costs. PG&E has not provided any compelling
16 arguments that would warrant the Commission changing its policy. Therefore, DRA
17 that the Commission only require ratepayers to fund one-half of the \$2.511 million,
18 or \$1.256 million for PG&E's test year 2014 D&O Insurance expense.

19 **4. PG&E Corporation Property and Liability** 20 **Insurance**

21 PG&E Corporation is insured under several insurance programs that provide
22 the same type of coverage for property and liability risks as the Utility (e.g.,
23 protection for claims from third parties alleging personal injury or property damage,
24 and coverage for the cost of repairing or replacing damage from an earthquake).⁹⁴
25 PG&E is requesting that ratepayers fund \$692,000 in 2014 for this expense.

26 PG&E says that PG&E Corporation performs the majority of its work for
27 PG&E – Utility. While this may or may not be true, ratepayers should not be asked
28 to fund additional property and liability insurance for PG&E Corporation. Ratepayers
29 already fund PG&E – Utility's property and liability insurance, which includes
30 property, D&O, and excess liability insurance. Having ratepayers fund these same
31 types of insurance costs for PG&E Corporation is duplication of costs and potential

⁹³ See Proposed Decision page 981, issued March 29, 2013.

⁹⁴ Ex. PG&E-9, p. 3-16.

1 unwarranted subsidy of other non-regulated activities of PG&E Corporation.
2 Therefore, DRA recommends a forecast of \$0 which is less than PG&E's test year
3 2014 insurance forecast.

4 **H. Risk and Audit Department – Information Technology** 5 **Projects**

6 The Market and Credit Risk Management section of the Risk and Audit
7 Department is forecasting the need for four IT projects: (1) Energy Trading and Risk
8 Management (ETRM) Implementation; (2) Risk Engine Consolidation; (3) Position
9 Reporting Centralization; and (4) Data Consolidation.⁹⁵ PG&E is forecasting \$1.5
10 million in expense in 2014, and \$2.6 million for capital expenditures in 2012, \$11.0
11 million in 2014, \$5.0 million in 2015, and \$4.0 million in 2016.

12 In addition to the IT work forecasted with the Alternate EOC in 2014, the
13 Corporate Security Department is planning four IT projects to make necessary
14 enhancements to PG&E's physical security and life safety programs. PG&E is
15 forecasting \$2.0 million expense for 2014, and \$2.9 million for capital expenditures in
16 2014, \$3.1 million in 2015, and \$2.2 million in 2016.⁹⁶

17 **1. IT Expenses**

18 The Risk and Audit Department's total IT expense forecast for test year 2014
19 is \$4.045 million and is reflected in MWC JV Maintain IT Applications and
20 Infrastructure.⁹⁷ PG&E developed the cost forecast for each IT project using its
21 application development concept estimating tool. DRA addresses this estimating
22 tool in Exhibit DRA-18 Shared Services & Information Technology Costs. Based on
23 the recommendations contained that exhibit, DRA recommends that \$566,000 be
24 removed from test year 2014 for the Risk and Audit Department's IT expense.

⁹⁵ Ex. PG&E-9, p. 3-17.

⁹⁶ Ex. PG&E-9, p. 3-19.

⁹⁷ Ex. PG&E-9, Table 3-5, p. 3-23.

1 **2. IT Capital Expenditures**

2 The Risk and Audit Department’s total IT capital forecast for test year 2014 is
3 \$33.770 million and is reflected in MWC 23 Implement Real Estate Strategy (\$13
4 million) and MWC 2F Build IT Applications & Infrastructure (\$20.77 million).⁹⁸ The
5 MWC 23, Implement Real Estate Strategy (\$13 million) and \$6.9 million of the
6 \$33.77 million in MWC 2F, Build IT Applications & infrastructure relates to the AEOC
7 which is addressed above.

8 PG&E developed the cost forecast for each IT project using its application
9 development concept estimating tool. DRA addresses this estimating tool in Exhibit
10 DRA-18 Shared Services & Information Technology Costs. DRA has reviewed
11 PG&E’s testimony and accompanying workpapers takes exception to PG&E’s
12 forecasted capital expenditures. DRA’s recommends that \$21.842 million be
13 removed from test year 2014 Risk and Audit Department’s IT capital expenditures.
14 DRA recommends that \$11.928 million be adopted for test year 2014.

15 **VI. DISCUSSION / ANALYSIS OF LAW DEPARTMENT and RELATED**
16 **COSTS**

17 This section discusses PG&E’s Law Department and Related Costs. The
18 Law Department reports to PG&E’s Senior Vice President (SVP) and General
19 Counsel and, according to PG&E, “...is essential for representing PG&E in all of its
20 regulatory and legal matters, as well as providing advice and counsel to support the
21 safe and reliable operations of PG&E’s business.”⁹⁹ PG&E’s 2014 forecast reflects
22 the addition of the Information Management Compliance Department. Collectively,
23 the Law Department, General Counsel’s Immediate Office, and Information
24 Management Compliance Department are referred to as the Law Department.

⁹⁸ Ibid.

⁹⁹ Ex. PG&E-9, p. 6-1.

1 PG&E is forecasting Law Department costs of \$51.733 million in 2014, which
 2 is (5.6 percent) lower than the 2011 recorded adjusted amount of \$54.778 million.¹⁰⁰

3 PG&E says that “[t]he primary changes to the forecast are escalation of wages for
 4 the Law Department employees and a reduction in forecasted outside services.”¹⁰¹

5 PG&E is forecasting \$21.125 million in 2014 for settlements and judgments
 6 and \$14.888 million for third-party claims payments.¹⁰²

7 The following table summarizes PG&E’s request and DRA’s recommendation
 8 regarding test year expenses for the Law Department and Related Costs.

9 **Table 16-23**
 10 **Administrative & General Expenses for TY2014**

7 Source: 2007-2011 data from Ex. PG&E-9, p. 6-12. 2012 Table 6-1

8 **B. Law Department**

9 The Law Department's substantive legal activities fall into three categories:
10 Litigation regulatory, and contracts and corporate services.¹⁰⁵ In its workpapers
11 PG&E lists three "Sub-Departments" of "Law" as: Law Department, Third Party
12 Claims, and Law Workers Compensation.¹⁰⁶ The total test year 2014 forecast for
13 all three sub-departments is \$49.814 million which is a six percent decrease from
14 2011 adjusted recorded costs of \$53.003 million. PG&E says that "[t]he adjustments
15 to recorded 2007 through 2011 included reorganization and the San Bruno costs.
16 PG&E has adjusted out \$8.014 million in 2010 and \$56.026 million in 2011 related to
17 San Bruno.¹⁰⁷

7

1. Law Department

8
9
10
11

The Law Department is forecasting \$44.512 million in expenses for 2014 which is a seven percent decrease from 2011 adjusted recorded costs of \$48.051 million.¹⁰⁸ DRA has reviewed PG&E's testimony and accompanying workpapers and does not oppose PG&E's test year 2014 forecast.

12

2. Third Party Claims (Staffing)

13
14
15
16

[The Third Party Claims Section is forecasting \$3.762 million in expenses for 2014, which a six percent increase from 2011 adjusted recorded costs of \$3.542 million.¹⁰⁹ DRA has reviewed PG&E's testimony and accompanying workpapers and does not oppose PG&E's test year 2014 forecast.

17

3. Workers Compensation (Staffing)

18
19
20
21

The Workers Compensation Section is forecasting \$1.539 million in expenses for 2014, which is a nine percent increase from 2011 adjusted recorded costs of \$1.408 million.¹¹⁰ DRA has reviewed PG&E's testimony and accompanying workpapers and does not oppose PG&E's test year 2014 forecast.

¹⁰⁸ Ex. PG&E-9, workpapers p. WP 6-27.

¹⁰⁹ Ibid.

¹¹⁰ Ibid.

1 **C. Information Management Compliance**

2 PG&E formed a new department, Information Management Compliance, to
3 strengthen its records management and compliance activities. The new department
4 was formed in 2012;¹¹¹ therefore, there are no adjusted recorded costs for the
5 period 2007 through 2011. Information Management Compliance is forecasting
6 \$559,344 in expenses for the test year 2014. DRA has reviewed PG&E’s testimony
7 and accompanying workpapers and does not oppose PG&E’s test year 2014
8 forecast.

9 **D. Litigation/Settlements and Third Party Claims**

10 The Law Department records two types of costs in Account 925 Injuries and
11 Damages: (1) settlements and judgment costs as part of litigation function, and (2)
12 claims payments to third parties alleging personal injury, property damage and
13 economic loss as a result of PG&E’s operations.¹¹² According to PG&E, all costs
14 related to the San Bruno have been excluded from PG&E’s 2014 GRC.¹¹³ The Law
15 Department is forecasting \$36.013 million in these types of expenses for 2014,
16 which is a 24.39 percent increase from 2011 adjusted recorded costs of \$48.839
17 million. The Law Department has adjusted out cases and issues, including San
18 Bruno, that PG&E determined to adjust out of recorded costs.¹¹⁴

19 **1. Settlements and Judgments**

20 The Law Department is forecasting settlement and judgments of \$21.125
21 million in 2014, which is a 42.7 percent decrease from 2011 adjusted recorded costs
22 of \$36.870 million. PG&E’s forecast is based on a four year average of adjusted
23 actual costs for 2008-2011. PG&E’s settlement and judgment adjusted costs for
24 2008-2011 totaled \$84.5 million and averages to \$21.125 million. PG&E’s adjusted

¹¹¹ Ex. PG&E-9, p. 6-7.

¹¹² Ex. PG&E-9, p. 6-9.

¹¹³ Ibid.

¹¹⁴ Ex. PG&E-9, workpapers p. WO 6-83.

1 costs for 2007-2011 include settlements for employment litigation of approximately
2 \$7.125 million. DRA recommends that costs related to employment and
3 discrimination cases should be removed before forecasting for the Test Year 2014.
4 This is consistent with long-standing Commission.

5 When an employment or discrimination case either results in a judgment
6 against the utility or the utility chooses to settle such a case, the costs incurred by
7 the utility should not be borne by the ratepayers. In 1980, FERC issued an
8 Accounting Release (AR) 12 which specifically questions:

9 What is the proper accounting treatment for expenditures made by
10 the utility, resulting from employment practices that were found to
11 be discriminatory by a judicial or administrative decree or that were
12 the result of a compromise settlement or consent decree?

13 The FERC Release AR-12 answers the question by stating:

14 The Uniform System of Accounts provides that all charges to utility
15 operating expenses accounts must be just and reasonable.
16 Expenditures f=of the nature mentioned above that can be readily
17 identified and quantified should not be considered as just and
18 reasonable charges to utility operations and should be classified to
19 the appropriate nonoperating expense accounts.

20 To DRA's knowledge, this Commission has followed AR-12 since it was
21 issued. In D.92549, the Commission decided to exclude from test year results all
22 costs which SCE incurred in an affirmative action suit which the Commission
23 assumed would shortly be settled, explaining the position was in harmony with
24 FERC in AR-12.¹¹⁵ In D. 96-01-011, the Commission, again held that costs incurred
25 in meritorious employment discrimination suits should not be charged to ratepayers
26 as they are non-operating expenses.¹¹⁶ In its most recent GRC, SCE asked the
27 Commission again to change the policy. The Commission upheld its stating:

¹¹⁵ SoCal Edison Company (1980) 5 CPUC 2d 39; D.92549; 1980 Cal PUC Lexis 1296*48.

¹¹⁶ In Re Southern California Edison Company (1996) D. 96-01-011, 1996 Cal. PUC Lexis 23.

1 As to settlement of discrimination claims, we decline to alter our
2 longstanding policy on this issue because the risks of a potentially
3 adverse verdict still drive any settlement. Unchecked ratepayer
4 recover could result in a loss of vigilance in preventing
5 discriminatory practices.¹¹⁷

6 DRA has removed a total of \$7.125 million from 2008 through 2011 adjusted
7 recorded costs. After removing these costs DRA calculates a four average of
8 \$19.567 million. Therefore, DRA recommends that \$1.558 million be removed from
9 test year 2014 forecast of \$21.125 million. DRA recommends a test year 2014
10 forecast for Settlement and Judgments of \$19.567 million.

11 2. Third Party Claims

12 The Law Department is forecasting \$14.888 million in 2014, which is a 24.39
13 percent increase from 2011 adjusted recorded costs of \$11.969 million.¹¹⁸ PG&E
14 says that the Law Department has adjusted out cases and issues, including San
15 Bruno, that PG&E determined to adjust out of recorded costs.¹¹⁹ PG&E's forecast
16 is based on a four year average of adjusted actual costs for 2008-2011. PG&E's
17 Third Party Claims adjusted costs for 2008-2011 totaled \$59.644 million and
18 averages to \$14.888 million. PG&E's 2012 recorded costs, adjusted for San
19 Bruno,¹²⁰ were six percent decrease from PG&E's forecast of \$14.888 million.
20 DRA calculated a four year average using 2009-2012 which results in a forecast of
21 \$14.649 million. DRA recommends a test year 2014 forecast for Third Party Claims
22 of \$14.649 million.

23

¹²⁰ See response to DRA-PG&E-111, Q. 1 Supplemental 1 Confidential.

1 **E. Law Information Technology Projects**

2 The Law Department is forecasting two IT projects for 2014: the Legal
3 eDiscovery Program and the Public and Employees Safety and Claims Management
4 Program.¹²¹ PG&E forecast \$664,000 in expenses and \$890,000 in capital
5 expenditures for test year 2014.

6 **1. IT Expenses**

7 PG&E is forecasting \$276,000 for the eDiscovery IT project¹²² and \$388,000
8 for Public and Employee Safety Claims Management Program.¹²³ PG&E developed
9 the cost forecast for each IT project using its application development concept
10 estimating tool.¹²⁴ DRA addresses this estimating tool in Exhibit DRA-18 Shared
11 Services & Information Technology Costs. Based on the recommendations
12 contained in that exhibit, DRA recommends that \$93,000 be removed from PG&E's
13 test year 2014 forecast.

14 **2. IT Capital Expenditures**

15 PG&E is forecasting \$800,000 for the eDiscovery IT project¹²⁵ and \$90,000
16 for Public and Employee Safety Claims Management Program.¹²⁶ DRA addresses
17 this estimating tool in Exhibit DRA-18 Shared Services & Information Technology
18 Costs. Based on the recommendations contained in that exhibit, DRA recommends
19 that \$8,000 be removed from 2013 and \$125,000 be removed from test year 2014
20 forecast.

1 **VII. DISCUSSION / ANALYSIS OF PG&E CORPORATION and PACIFIC**
2 **GAS AND ELECTRIC COMPANY EXECUTIVE OFFICES; and**
3 **CORPORATE SECRETARY DEPARTMENT COSTS**

4 This section discusses PG&E Corporation, Pacific Gas And Electric Company
5 executive offices, and Corporate Secretary Department costs. PG&E says that
6 “PG&E Corporation’s Chairman of the Board (Chairman), Chief Executive Officer
7 (CEO) and President is responsible for the executive leadership of Pacific Gas and
8 Electric Company (PG&E or the Company) and PG&E Corporation.”¹²⁷ According
9 to PG&E, since PG&E is the sole subsidiary of PG&E Corporation, “...the activities
10 of the Chairman, CEO and President focus solely on the core business of
11 PG&E.”¹²⁸

12 PG&E’s President oversees all PG&E functions and utility performance. The
13 chief responsibility of PG&E’s President is to ensure that PG&E’s lines of business
14 (LOB) deliver safe, reliable, affordable, customer-focused gas and electric service.

15 PG&E’s Corporate Secretary Department supports the Boards of Directors of
16 PG&E and PG&E Corporation and their respective committees; provides
17 governance, reporting, shareholder and other necessary services for PG&E and
18 PG&E Corporation; and manages director fees and expenses for the PG&E and
19 PG&E Corporation Boards of Directors.”¹²⁹

20 PG&E is forecasting department costs of \$13.8 million in 2014, which is a ten
21 percent increase from the 2011 adjusted recorded costs of \$12.5 million.¹³⁰ In
22 addition, PG&E is forecasting Directors Fees and Expenses of \$1.617 million in
23 2014, which is a three percent increase from the 2011 adjusted recorded costs of
24 \$1.566 million. The increase is due to the anticipated of an additional Board
25 member by 2014 and increase in quarterly retainer amounts.

9
 10 The CEO Organization consists of three sub departments:

- 11 • Chairman, CEO and President’s Office
- 12 • President’s Office
- 13 • Corporate Secretary

14 **A. Chairman, CEO and President’s Office**

15 PG&E Corporation’s Chairman, CEO and President is responsible for the
 16 executive leadership of PG&E and PG&E Corporation.¹³¹ In September 2011,
 17 PG&E Corporation’s Board of Directors elected Mr. Anthony F. Earley, Jr. as
 18 Chairman of the Board, CEO and President of PG&E Corporation. PG&E is
 19 forecasting \$4.619 million which is a 1.2 percent increase from 2011 adjusted
 20 recorded costs of \$4.565 million.

¹³¹ Ex. PG&E-9, p. 7-2.

Table 16-29
2007-2012 Recorded Data for Chairman, CEO & President’s Office
(In Thousands of Dollars)

Description	2007	2008	2009	2010	2011	2012
Chairman, CEO & Pres.	\$3,833	\$3,450	\$4,088	\$4,141	\$4,565	\$2,936

4 Source: 2007-2011 data from Ex. PG&E-9, p. 7-11. 2012 data from DRA-PG&E-108, Question 4
5 Attachment 8

6 DRA reviewed PG&E’s testimony and accompanying workpapers and
7 opposes PG&E’s test year forecast.

8 PG&E’s 2012 recorded costs were \$2,936 million¹³² which is 35 percent
9 lower than the 2012 forecast of \$4.551 million. DRA concludes that it is appropriate
10 to use a three year average, 2010-2012, to calculate the test year 2014 forecast.
11 DRA used a three year average which results in a test year 2014 forecast of \$3.884
12 million. DRA recommends that \$735,179 be removed from PG&E’s Chairman, CEO
13 and President’s Office test year 2014 forecast.

14 **B. President’s Office**

15 PG&E’s Executive Office is comprised of the immediate office of PG&E’s
16 President, the Utility Strategic Planning group, and the Utility Performance
17 Improvement Department.¹³³ PG&E’s President’s Office is forecasting \$4.785
18 million of expenses in 2014, which is a 29.68 percent increase from 2011 adjusted
19 recorded costs of \$4.277 million.¹³⁴

5 Source: 2007-2011 data from Ex. PG&E-9, workpapers p. WP 7-1. 2012 data from DRA-PG&E-108,
6 Question 4 Attachment 8

7

1. 920 – Administrative & General Salaries

8

The President's Office is forecasting \$4.037 million in labor for test year 2014.¹³⁵ This is a 35 percent increase from 2011 adjusted recorded costs of \$3.689 million. DRA has reviewed PG&E's testimony, accompanying workpapers, responses to data requests and takes exception. The President's Office 2012 recorded costs were \$2.924 million which is 17 percent lower than PG&E's 2012 forecast of \$3.683 million. DRA concludes that it is appropriate to use a three year average, 2010-2012, to calculate the test year 2014 forecast. DRA used a three year average which results in a test year 2014 forecast of \$2.849 million. DRA recommends that \$1.188 million be removed from the PG&E's President's Office test year 2014 forecast.

18

2. 921 – Office Supplies Expenses

19

The President's Office is forecasting \$378,330 in non-labor expense for the test year 2014.¹³⁶ This is a 15.45 percent decrease from 2011 adjusted recorded costs of \$447,451. DRA has reviewed PG&E's testimony, accompanying workpapers and data request response and does not oppose PG&E's forecast.

22

¹³⁵ Ex. PG&E-9, workpapers p. WP 7-25.

¹³⁶ Ibid.

1 **3. 923 – Outside Services - Utility**

2 The President’s Office is forecasting \$369,589 in outsides services for the test
3 year 2014.¹³⁷ This is a 41.15 percent increase from 2011 adjusted recorded costs
4 of \$261,846. DRA has reviewed PG&E’s testimony, accompanying workpapers,
5 responses to data requests and takes exception to PG&E’s request. The
6 President’s Office 2012 recorded costs were \$190,687 which 61 percent lower than
7 PG&E’s 2012 forecast of \$494,042. Given the fact that there have been wide
8 fluctuations in outsides services during the record period 2007-2012, DRA
9 recommends using a three year average to forecast outside services for the test
10 year 2014. DRA has calculated a three year average of \$349,783. DRA
11 recommends that \$19,806 be removed from the President’s Office Outside Services
12 forecast for test year 2014.

13 **C. Corporate Secretary**

14 The Corporate Secretary Department is responsible for corporate
15 governance, reporting and shareholder services for PG&E and PG&E
16 Corporations.¹³⁸ Corporate Secretary Department is forecasting \$4.39 million
17 which is a three percent increase from 2011 adjusted recorded costs of \$4.277
18 million. DRA has reviewed PG&E’s testimony and accompany workpapers and
19 does not oppose PG&E’s forecast.

20 **D. Directors Fees and Expenses**

21 PG&E’s Board of Directors currently consists of 13 directors and PG&E
22 Corporations Board of Directors currently consists of 12 directors. Of the 13
23 directors of PG&E, 11 are outside directors and two are officers (PG&E President
24 and PG&E Corporation Chairman, CEO and President). Each outside director
25 receives quarterly retainers for service on the Board as well as fees for attendance
26 at Board meetings, Board committee meetings, and shareholder meetings. In

¹³⁷ Ibid.

¹³⁸ Ex. PG&E-9, p. 7-7.

1 addition, outside directors are reimbursed for reasonable expenses incurred for
2 participating in Board meetings, Board committee meetings, shareholders meetings,
3 and other activities undertaken on behalf of PG&E or PG&E Corporation.¹³⁹ PG&E
4 is forecasting Directors Fees and Expenses of \$1.617 million which is a three
5 percent increase from 2011 adjusted recorded costs of \$1.566 million.

6 DRA has reviewed the 2007 through 2011 directors' fees and expenses¹⁴⁰
7 and takes exception to excessive tips, transportation costs, Board general lodging,
8 Board dinner expenses, outside speaker, director education, and candidate
9 interviews. DRA removed \$42,821 of unreasonable reimbursable expenses from
10 2007 through 2011 before calculating a three year average for these reimbursable
11 expenses. DRA forecasts a ten percent increase in reimbursable expenses for
12 test year 2014; therefore, DRA recommends reimbursable expenses of \$140,999.

13 PG&E is forecasting Directors quarterly retainers of \$15,125 for the test year,
14 which totals to \$726,000 for 12 directors. Quarterly retainers were \$12,500 in 2007
15 and 2008. PG&E increased the quarterly retainers to \$13,750, ten percent, in 2009.
16 PG&E is forecasting quarterly retainers of \$15,125, for test year 2014. PG&E has
17 not justified another ten percent increase in Directors' quarterly retainers DRA
18 recommends that the quarterly retainers continue at \$13,750. This includes the
19 embedded increase of ten percent in 2007 and 2009. This results in test year 2014
20 forecast of \$660,000. DRA recommends \$66,000¹⁴¹ less in quarterly retainers than
21 PG&E for test year 2014.

22 DRA recommends a forecast of \$1,474,249 for Directors Fees and Expenses
23 in test year 2014. The following table compares PG&E's forecast to DRA's:
24

¹³⁹ Ex. PG&R-9, p. 7-10.

¹⁴⁰ See response to DRA-PG&E-005, Question 39 Attachment 1.

¹⁴¹ PG&E's forecast of \$726,000 minus DRA's forecast of \$660,000 which equals \$66,000 adjustment.

VIII. DISCUSSION / ANALYSIS OF PG&E CORPORATION COSTS IN OTHER A&G DEPARTMENTS

This section discusses PG&E Corporation costs in other A&G departments not addresses in in this exhibit, but addressed in Exhibit DRA-17, such as Human Resources Department and the Corporate Affairs-External Affairs Department. PG&E Corporation did not provide any services to the Regulatory Relations Department and the Corporate Affairs – Communications Department during the period 2007 through 2011. Therefore, these two departments do not include forecasts for 2014 for PG&E Corporation services.

PG&E is forecasting Human Resources Department costs, FERC Account 923 Outside Services – Corporation, \$789,000, which is 37.6 percent lower than 2011 recorded adjusted amount of \$1.264 million.

PG&E is forecasting Corporate Affairs – External Affairs Department costs, FERC Account 923 Outside Services – Corporation, \$1.919 million, which is 4.92 percent higher than 2011 recorded adjusted amount of \$1.829 million.

1 The following table summarizes PG&E's request and DRA's recommendation
 2 regarding test year expenses for PG&E Corporation Costs addressed in Other A&G
 3 Departments.¹⁴² These forecasts are reflected in Exhibit DRA-17 (Administrative &
 4 General Expenses, Part 2 of 2).

5 **Table 16-32**
 6 **Administrative & General Expenses for TY2014**
 7 **PG&E Corporation Costs in Other A&G Departments**
 8 **(In Thousands of Dollars)**

Description (a)	DRA Recommended (b)	PG&E Proposed ¹⁴³ (c)
Human Resources	\$789	\$789
Corporate Communications-External Affairs	\$1,919	\$1,919
Total	\$2,708	\$2,708

9 **A. Human Resources Department**

10 The Human Resources Department (HR) is comprised of seven sections, of
 11 which only four sections had services provided by PG&E Corporation during the
 12 period 2007 through 2011: 1) SVP Human Resources, 2) Compensation, 3) Talent
 13 Management, and 4) HR Delivery.¹⁴⁴ HR is forecasting \$788,957 which is a 37.59
 14 percent decrease from 2011 adjusted recorded costs of \$1.264 million. PG&E
 15 Corporation is not forecasting costs for Compensation, Talent Management and HR
 16 Delivery for test year 2014.

17
¹⁴² PG&E Company (utility) A&G expenses for the Human Resources Department, Regulatory Relations Department, Corporate Affairs-Communications Department, and Corporate Affairs-External Affairs Department are discussed in Ex. DRA-17. PG&E Corporation A&G expenses for these departments are discussed in this exhibit.

¹⁴³ Ex. PG&E-9, p. 4-46 and p.9-13.

¹⁴⁴ Ex. PG&E-9, workpapers p. WP 4-1 and 4-2.

6 Question 4, Attachment 5.

7

1. SVP Human Resources

8

The Senior Vice President HR (SVPHR) provides the direction, oversight and HR strategy for PG&E and PG&E Corporation.¹⁴⁵ SVPHR is forecasting \$788,957 in 2014, which is a 37.59 percent decrease from 2011 adjusted recorded costs of \$1.264 million. DRA has reviewed PG&E's testimony and accompanying workpapers and does not oppose PG&E's test year 2014 forecast.

9

10

11

12

13

B. Corporate Affairs-External Affairs

14

Corporate Affairs-External Affairs is responsible for building and maintaining successful working relationships with community stakeholders and government officials.¹⁴⁶ This section only addresses services provided to PG&E- the Utility by PG&E Corporation. Corporate Affairs-External is forecasting \$1.918 million in 2014, which is a 4.93 percent increase from 2011 adjusted recorded costs of \$1.829 million.

15

16

17

18

19

20

1. SVP Corporate Affairs

21

The SVP of Corporate Affairs is responsible for developing, executing, overseeing, and managing PG&E's external affairs activities including a broad

22

¹⁴⁵ PG&E-9, p. 4-3.

¹⁴⁶ Ex. PG&E-9, p. 9-1.

1 spectrum of internal and external communications activities to provide information on
2 PG&E's products and services to PG&E's customers.¹⁴⁷ SVP is forecasting \$1.293
3 million in 2014, which is 16.25 percent increase from 2011 adjusted recorded costs
4 of \$1.112 million. DRA has reviewed PG&E's testimony and accompanying
5 workpapers and does not oppose PG&E's test year 2014 forecast.

6 **2. Federal Affairs**

7 Federal Affairs Department represents PG&E before Congress and federal
8 agencies, and develops and enhances relationships with various stakeholders at the
9 national level to support PG&E's safety practices, operational goals, customer
10 service, and the environment.¹⁴⁸ Federal Affairs is forecasting \$626,444 in 2014,
11 which is a 26.56 percent decrease from 2011 adjusted recorded costs of \$716,853.
12 DRA has reviewed PG&E's testimony and accompanying workpapers and does not
13 oppose PG&E's test year 2014 forecast.

14 **IX. DISCUSSION / ANALYSIS OF A&G RATEMAKING ADJUSTMENTS**

15 This section discusses the methodologies used to make the ratemaking
16 adjustments to recorded costs, capitalization of construction related costs,
17 reductions to exclude Below-The-Line activities, and SAP to FERC translation.

18 "PG&E adjusts A&G expenses for ratemaking purposes in three ways.

19 First, PG&E capitalizes some A&G costs. The purpose of the capitalization
20 adjustment is to properly classify expenses associated with construction projects as
21 capital costs. This adjustment does not reduce the A&G revenue requirement
22 forecast as a whole. Rather, it spreads recovery of those costs over a multi-year
23 period as opposed to including them as expenses recoverable in the 2014 Test
24 Year.

¹⁴⁷ Ex. PG&E-9, p. 9-2.

¹⁴⁸ Ex. PG&E-9, p. 9-5.

1 Second, PGE removes additional costs from the A&G forecast, which are not
2 properly allocated to costumers in the GRC. Specifically, PG&E removes costs from
3 its forecast related to below-the-line (BTL) activities, and employee benefits
4 associated with Non-Tariffed Products and Services (NTP&S). In contrast to the
5 adjustment for capitalization, the reduction of these items does reduce the overall
6 revenue requirement forecast.

7 Finally, PG&E translates the total adjusted A&G expenses from SAP dollars
8 to Federal Energy Regulatory Commission (FERC) accounts as required by the
9 Commission.”¹⁴⁹

10 **A. Capitalization Adjustments**

11 To properly reflect costs of ongoing and new construction, work supporting
12 construction activities not directly charged to construction orders must be accounted
13 for in capital and removed from expense.¹⁵⁰ PG&E capitalizes overhead
14 construction costs. PG&E calculates a capitalization factor for labor, materials and
15 supplies (M&S), and other A&G expenses such as Remaining Vacation, Workers
16 Compensation, Benefits, Short-Term Incentive Plan (STIP), and Third-Party Claims.
17 PG&E is forecasting the following capitalization factors:

18 **Table 16-34**
19 **Capitalization Factors**
20

Factor	FERC Account	Percent
Labor	920	11.87%
Material and Supplies	921	10.08%
Remaining Vacation	922	39.91%
Workers Compensation	925	39.91%
Benefits	926	39.91%
STIP	922	29.35%
Third-Party Claims	925	21.70%

21
¹⁴⁹ Ex. PG&E-9, p. 10-1.

¹⁵⁰ Ex. PG&E-9, p. 10-2.

1 **1. Capitalization of Corporate Services Department**
2 **Costs**

3 Each of PG&E’s Corporate Services Department determines the amount of its
4 work that its department uses in support of capital projects and calculates a
5 composite A&G capitalization rate for labor and for M&S. The labor capitalization
6 factor is then applied to that Corporate Services Department’s A&G salaries, FERC
7 Account 920, which results in the amount of capitalized labor that becomes a
8 transfer credit (FERC Account 922). Similarly, each Corporate Services
9 Department’s M&S capitalization factor is then applied to that Corporate Services’
10 A&G Office Supplies, FERC Account 921, which results in the amount of capitalized
11 M&S that becomes transfer credit. DRA has viewed PG&E’s capitalization method
12 and does not oppose PG&E’s forecast.

13 **2. Capitalization of Companywide A&G Expenses**

14 Similar to the capitalization of Corporate Services department costs, PG&E
15 capitalizes certain companywide A&G expenses and third-party claims that are
16 associated with new or ongoing construction activities.¹⁵¹ DRA has reviewed
17 PG&E’s testimony and accompanying workpapers and does not oppose PG&E’s test
18 year 2014 forecast.

19 **B. Reductions for BTL and Non-Utility Affiliates**

20 PG&E reduces its GRC forecast to exclude below-the-line (BTL) activities as
21 well as non-utility affiliate work.¹⁵² Normal utility operations are above-the-line and
22 recoverable in rates. The Commission’s directs that certain other costs be borne
23 solely by shareholders, not ratepayers. These are classified as BTL. DRA agrees
24 with POG&E’s stated method of reviewing the last recorded year to determine the
25 percentage of benefits that were recorded as BTL and applying that to the
26 forecasted expenses.

¹⁵¹ Ex. PG&E-9, p. 10-4.

¹⁵² Ex. PG&E-9, p. 10-6.
