Subject: Notice to R.12-11-005 of CSI 2012 Annual Data Annex Report availability

Hello.

This is to notify you that the CSI Program Administrators have submitted their Annual Data Annex progress report for 2012. The report, along with the back-up data files, can be viewed at

<http://www.cpuc.ca.gov/PUC/energy/Solar/legreports.htm>

This report complements and provides background for information which is updated more frequently and available online at

http://www.californiasolarstatistics.ca.gov/reports/data_annex/

Among other things, the Data Annex report provides graphs that track, since the beginning of the program, how quickly applicants traverses the various milestones, and how efficiently the PAs and the utility interconnection departments are processing them. It also has information about NEM participation in the three main electric utility areas, and how that is growing over time.

Regards,

James Loewen
