Subject: RE: San Rafael CNG Facility Access

Thanks Laura and Sid. My final questions (hopefully):

- 1) If PG&E were to offer night and weekend access at the station, would that require a security guard during those hours? Would any other measures be required?
- 2) Do you have any idea of how frequently CNG users used the facility at nights and weekends?

Richard

Richard

The gate at the San Rafael facility opens at 5:30 am and closes at 5:00 pm M-F.

My colleague Sid has looked at the tariff on this and it references the sale of "excess" CNG, so we don't see this as an obligation to serve issue.

I'm not going to do anything further unless you direct/request otherwise!

Thanks

Laura

Laura,

I had the attached image assembled for your use. Let me know if you need any modifications.
