Subject: RE: Thanks for attending the April 24th Energy Efficiency workshop

Thanks Michael. I'm glad the event turned out to be worthwhile.

Shall we schedule a follow-up meeting to talk about what we heard and potential next steps?

Jan, Jana, Bryce and Jeanette

I wanted to take a moment and say 'thank you' again for the fantastic leadership PG&E demonstrated at this event. Logistical snafus aside, I really found the day to be EXCELLENT. Great job and I look forward to considering how we could apply some of the concepts we heard in the next portfolio here in California.

Michael

Subject: Thanks for attending the April 24th Energy Efficiency workshop

Hi everyone,

Thank you for attending the Building a More Efficient Future: A National Perspective workshop on April 24th. The workshop featured over 150 individuals from across the US that came together to listen, learn and collaborate on the future of energy efficiency (EE) in California and nationally. Learning more about the unwavering commitment to the long-term success of energy efficiency programs provided an excellent reminder that through collaborative events such as this, the future of EE is in good hands.

We'd like to extend a special thanks to all of our speakers at the event. Their expertise allowed for rich and meaningful conversations on how to build a more efficient future. For those interested PDFs of the presentations are posted [here](#).

A special thanks again to:
