Subject: RE: Novato PG&E natural gas transmission lines.

Hi Sunil,

We are in the process of responding to a data request from Mr. Martin; he will be receiving the response in the next day or two. We'll copy you on the response as well if you'd like?

Thank you,

[Redacted]

We request that a representative from PG&E contact Mr. Martin and provide him with appropriate information on Lines 21F and 21G that would assist him and the City of Novato learn of PG&E activities related to the maintenance, any recent testing and on-going integrity of the portion of these lines in Novato.

Please let me know if you have any questions.

Thank you Redact

**Subject:** Novato PG&E natural gas transmission lines.

Hi Sunil,

Thank you for answering my questions about the natural gas transmission lines in the City of Novato this morning. Regarding these, if you would send me any testing records that you may have for PG&E natural gas transmissions lines 21F and 21G I would appreciate it. The reason I need this information is for an environmental impact report we are doing for the City of Novato Housing Element. Some of the residents in the city are concerned with the Housing Element placing potential multifamily housing sites next to natural gas pipelines. Any information on 21F and 21G pipelines would be helpful.

Mike Martin
