Dear Mr. Cherry,

DRA filed a protest today on PG&E's AL 4238-E. Unfortunately, I noticed that steno did not redact a portion of the protest which was marked as confidential, and therefore recipients of the public version of our protest can read the name of one of the shortlisted projects.

We are working to resolve this issue and will keep you updated on our progress. I am out of the office tomorrow but will be checking this email and can be reached directly at (510) 684-7866. Thank you for your understanding.

Sincerely,

David Siao
