Subject: RE: Question About EV Charging Infrastructure

Interesting question and I have no idea – but I'll find out!

Subject: Question About EV Charging Infrastructure

Laura- we are exploring installing EV charging infrastructure in the CPUC garage. I am curious if PG&E has anything that they provide to businesses that are exploring their options like we are.

In particular, we are looking for a vendor that is willing to install the infrastructure for free and gets their revenue from customer subscriptions, but the only one like that we've found so far requires that each subscription gets a dedicated parking space which isn't practical for our garage. Paul asked me to find out from PG&E if there were

any vendors PG&E was aware of the fits our description.

Thought I'd start with you!

Obviously, this is not a research project, just curious if you guys have any info handy that would help us.

Thanks.
