

We support your power to choose

As part of our mutual commitment to support your energy choice, MCE and Pacific Gas and Electric Company (PG&E) have partnered to provide you with a comparison of typical electric rates, average monthly charges and generation portfolio contents. This comparison is based on a rate that is representative of our small commercial customers.

If this comparison does not address your specific rate, please visit us online at mceCleanEnergy.com or pge.com/cca.

Pacific Gas and Electric Company P.O. Box 997320 Sacramento, CA 95899-7320

Understanding your energy choice

2013 Commercial Electric Rate Comparison, A-6 and COM-6

	PG&E	MCE Light Green 50% Renewable Energy	MCE Deep Green 100% Renewable Energy
Generation Rate (\$/kWh)	\$0.08660	\$0.07281	\$0.08281
PG&E Delivery Rate (\$/kWh)	\$0.10375	\$0.10375	\$0.10375
PG&E PCIA/FF (\$/kWh)	N/A	\$0.00547	\$0.00547
Total Electricity Cost (\$/kWh)	\$0.19034	\$0.18202	\$0.19202
Average Monthly Bill (\$)	\$855.53	\$818.13	\$863.08

Monthly usage: 4,495 kWh

This compares electricity costs for a typical small commercial customer in the MCE/PC&E service area (Marin County and Richmond) with an average monthly usage of 4,495 kilowatthours (kWh). This is based on the recent 12-month billing history for all customers on A-6/COM-6 rate schedules for PG&E's and MCE's published rates as of June 15, 2013.

Generation Rateis the cost of creating electricity to power your home. The generation rate varies based on your energy provider. PG&E generation rates do not include temporarily deferred costs associated with greenhouse gas (GHG) compliance under the California Cap-and-Trade Program. These costs will be added to PG&E generation rates in 2014. MCE generation rates currently include these costs and MCE customers will not pay deferred costs in 2014.

PG&E Delivery Rate is a charge assessed by PG&E to deliver electricity to your home. The PG&E delivery rate depends on your electricity usage, but is charged equally to both MCE and PG&E customers. This rate does not reflect reductions associated with the sale of GHG allowances under California's Cap-and-Trade Program, which will be included in 2014.

PG&E PCIA/FF represents the Power Charge Indifference Adjustment (PCIA) and the Franchise Fee Surcharge (FF). The PCIA is a charge to cover PG&E's generation costs acquired prior to a customer's switch to a third-party electric generation provider. PG&E acts as a collection agent for the Franchise Fee Surcharge, which is levied by cities and counties for all customers. Rates are current as of June 15, 2013
