## We support your power to choose

As part of our mutual commitment to support your energy choice, MCE and Pacific Gas and Electric Company (PG&E) have partnered to provide you with a comparison of typical electric rates, average monthly charges and generation portfolio contents. This comparison is based on a rate that is representative of large commercial customers.

If this comparison does not address your specific rate, please visit us online at [mceCleanEnergy.com](http://mceCleanEnergy.com) or [pge.com/cca](http://pge.com/cca).

## 2013 Commercial Electric Rate Comparison, E-19S and COM-19S

	PG&E	MCE Light Green 50% Renewable Energy	MCE Deep Green 100% Renewable Energy
Generation Rate (\$/kWh)	\$0.07891	\$0.07034	\$0.08034
PG&E Delivery Rate (\$/kWh)	\$0.06556	\$0.06556	\$0.06556
PG&E PCIA/FF (\$/kWh)	N/A	\$0.00499	\$0.00499
Total Electricity Cost (\$/kWh)	\$0.14447	\$0.14089	\$0.15089
Average Monthly Bill (\$)	\$6,695.01	\$6,529.10	\$6,992.52

Monthly usage: 46,342 kWh, monthly demand: 58 kW

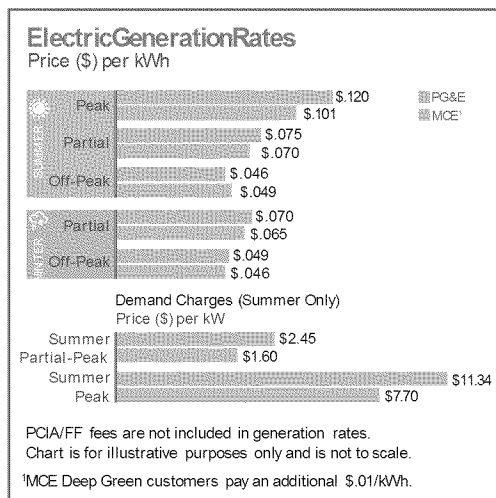

Rates are current as of June 15, 2013

This compares electricity costs for a typical large commercial customer in the MCE/PG&E service area (Marin County and Richmond) with an average monthly demand of 58 kilowatts (kW) and an average monthly usage of 46,342 kilowatt-hours (kWh). This is based on the recent 12-month billing history for all customers on E-19S/COM-19S rate schedules for PG&E's and MCE's published rates as of June 15, 2013.

Generation Rates is the cost of creating electricity to power your home. The generation rate varies based on your energy provider. PG&E generation rates do not include temporarily deferred costs associated with greenhouse gas (GHG) compliance under the California Cap-and-Trade Program. These costs will be added to PG&E generation rates in 2014. MCE generation rates currently include these costs and MCE customers will not pay deferred costs in 2014.

PG&E Delivery Rate is a charge assessed by PG&E to deliver electricity to your home. The PG&E delivery rate depends on your electricity usage, but is charged equally to both MCE and PG&E customers. This rate does not reflect reductions associated with the sale of GHG allowances under California's Cap-and-Trade Program, which will be included in 2014.

PG&E PCIA/FF represents the Power Charge Indifference Adjustment (PCIA) and the Franchise Fee Surcharge (FF). The PCIA is a charge to cover PG&E's generation costs acquired prior to a customer's switch to a third-party electric generation provider. PG&E acts as a collection agent for the Franchise Fee Surcharge, which is levied by cities and counties for all customers.
