 Solar City
 Sierra Club

Enbala
Clean Coalition
1 Energy Systems
Beacon Power
Megawatt Storage Farms
Brookfield Renewable Energy Group
Alton Energy
Gravity Power
Primus Power
Green Power Institute

Parties' Responses to the Following Questions:

- 11:15 – 11:45 1. Please comment on the proposed procurement targets and storage auction program design - including how any utility's procurement that exceeds a target in one year should be addressed and considered for future procurement targets; and, the extent to which utilities should be permitted flexibility in procuring among the transmission, distribution and customer buckets.
- 11:45 – 12:05 2. Please comment on the cost-containment "off ramps" for relief from procuring up to each target and what metrics should be used to evaluate the appropriateness of the off ramps.
- 12:05 – 11:25 3. Please comment on how this proposal may be coordinated with the Renewable Portfolio Standard procurement plans, the Long Term Procurement Plans and other related proceedings.
- 12:25 – 12:30 pm **Closing remarks:**
Commissioner Carla Peterman
