Subject: RE: AB 327 proposed amends to July 8 version.docx

I agree with Trina's edits. With those changes, everything looks fine with the draft.

Matt

Celia, Matt et al, based on our review and discussion with the other utilities, and in addition to Matt's suggested corrections in his email below, below is one additional correction in the legislative language that we recommend, plus two observations. The rest of the legislative language looks good; thank you for all your help. Matt and other parties, please feel free to add your additional comments as well, if any.

-Trina

Amendment 15 defines "fixed charge" but does not limit the definition to this legislation. Need to add back in "For purposes of this section and section 739.1".

Amendment 23: We agree with Matt Freedman's change in his email below to correct the drafting errors and typo in Amendment 23.

Amendment 16 adds "electrical" as the qualifier on the fixed charge authorization. We agree because this change is necessary to confirm that this

section only applies to fixed charges for residential electricity service.

Celia,

TURN has reviewed the Leg Counsel language and caught the following errors that should be corrected (changes shown in underline) in Amendment 23. Amendment 23 should read as follows:

On page 15, in lines 22 and 23, strike out "change in authorized residential class revenue requirements. This" and insert:

increase in the Consumer Price Index for the prior calendar year. This subdivision shall apply to any default rate schedule, at least one optional tiered rate schedule, and at least one optional time variant rate schedule.

(g) This section does not require the commission to approve any new or expanded fixed charge.

The change to (f) is essential since the current draft would exempt default rates and the identified optional rate schedules from the cap on fixed charges. This is the opposite of our agreement and is a mistake by Leg Counsel. The change to (g) is to ensure uniform terminology ("fixed customer charge" should be "fixed charge") throughout the section.

It is my understanding that DRA is also reviewing and may have feedback.

Feel free to contact me if you have any questions.
