July 19, 2013

Brian Cherry
Manager, Regulatory Relations
Pacific Gas and Electric Company
77 Beale Street, Room 1085
San Francisco, CA 94105

Dear Mr. Cherry:

The California Public Utilities Commission released a report on March 14, 2012, titled "Hazard Database Project - Report on Status and Initial Recommendations." Seventeen hazards relating to gas distribution and transmission systems were identified in the report as needing increased scrutiny. Please describe what procedures and programs your system has in place to address all such hazards that are applicable to your system. Please furnish your reply by August 9, 2013.

Please feel free to contact me if you have any questions or need any clarifications.

Sincerely,

Steven Haine, P.E.
Senior Utilities Engineer
